CORPORATE PROFILE

Bank One Limited was established in 2008 as a joint venture between I&M Group, a key player in East Africa's financial sector, and CIEL Finance, the finance arm of CIEL Group, one of Mauritius's foremost conglomerates. Based in Mauritius, Bank One serves businesses and individuals across Africa and beyond, providing tailored financial solutions designed to meet their diverse and developing needs.

The Bank benefits from the extensive regional presence of its shareholders in key markets such as Kenya, Tanzania, Rwanda, Uganda, Madagascar, and Mauritius. We provide a comprehensive range of products and services across Corporate and Institutional Banking, Treasury Services, Consumer Banking, Private Banking and Wealth Management. Our services are designed to help businesses grow, manage risk, and optimize their financial resources and help individuals achieve their personal goals through a comprehensive mix of savings, loans, payments and investment solutions.

Our approach is built on collaboration, innovation, and deep industry expertise. The Bank's dedicated teams, led by professionals with extensive experience, deliver customized strategies based on a solid understanding of market trends, regulatory environments, and client needs. Bank One's teams work seamlessly to provide efficient and effective services that generate long-term value.

Head of Human Resources	Ms. Priscilla Mutty
Company Secretary	Ms. Kareen Ng*

* Appointed as EXCO member on 07.11.2024

CORPORATE GOVERNANCE

Introduction

Bank One Limited (the “Bank” or “Bank One”) is a bank regulated by the Bank of Mauritius and the Financial Services Commission. It is also a public interest entity (“PIE”) as defined by the Financial Reporting Act 2004. Throughout the year ended 31 December 2024, to the best of the Board’s knowledge, the Bank has applied all of the principles set out in the National Code of Corporate Governance for Mauritius (2016) (the “Code”) and explained how these principles have been applied.

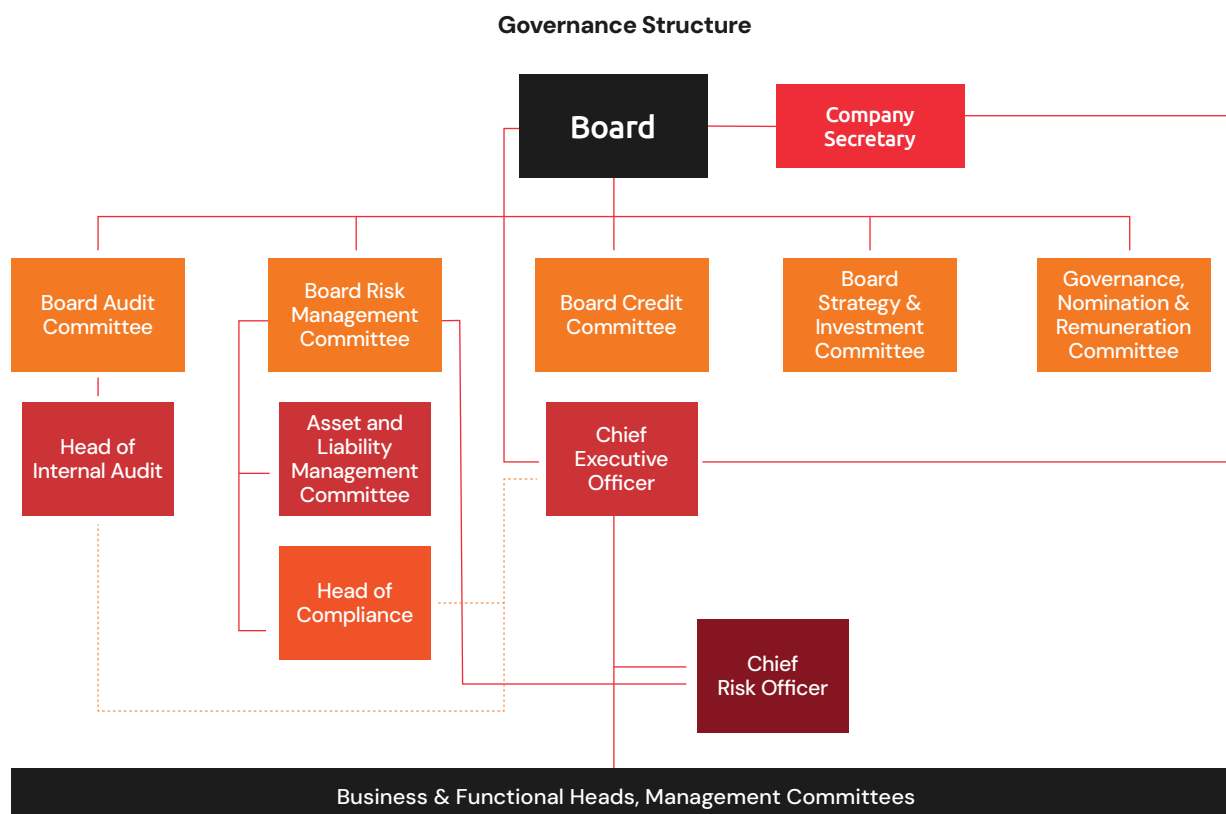

Principle 1: Governance Structure

The Board of Directors is responsible for defining the Bank’s strategic direction and for leading, overseeing, and supervising the management of the business in an ethical and responsible manner. It is also tasked with ensuring compliance with all legal and regulatory requirements.

The Board is committed to upholding the highest standards of corporate governance and ethical conduct across the Bank’s operations, aiming to enhance shareholder value while considering the broader interests of all stakeholders. To achieve this, the Bank has implemented a robust governance framework.

The discharge of the Board’s responsibilities involves a combination of direct involvement and delegation through board committees, for a more focused approach on specific areas. Such a structure ensures a comprehensive oversight of the Bank’s activities.

In the pursuit of effective governance, the day-to-day management and operations of the Bank’s business have been entrusted to the Chief Executive Officer. The CEO is responsible for establishing a management structure that fosters accountability and transparency, while ensuring the effective implementation of business strategies, risk management systems, and internal controls.

Board Charter

The Board Charter sets out the role, responsibilities, structure and processes of the Board and is complementary to the requirements of the legislations and regulations, the Bank's constitution, and the shareholders agreement. The Charter also sets out the committees which have been set up by the Board to assist it in the discharge of its responsibilities. The key senior governance positions are also defined therein, including their respective position statements.

The Board Charter along with the position statements for the key senior governance positions, and the Constitution of the Bank, is published in on the Bank's website: <https://bankone.mu/en/directors/>.

Code of Ethics and Whistleblowing Policy

The Bank's Code of Ethics and Whistleblowing Policy (the "Code") lays out the values, standards of behavior and ethical practices expected in all the Bank's dealings. It also provides the framework and guidance around whistleblowing, including the availability of an independent whistleblowing hotline, for employees to safely report illegal, unethical and fraudulent behaviors and malpractices without fear of reprisal. The Code is reviewed by the Board every 3 years. An earlier review is made in the event of any circumstances warranting same. The Governance, Nomination & Remuneration Committee has been delegated oversight responsibility on all matters relating to ethical standards within the Bank and reports to the Board thereon. The abridged version of the Code can be accessed on the Governance Section of the Bank's website:

<https://bankone.mu/en/corporate-governance/>.

Principle 2: Structure of the Board and its Committees

Bank One is headed by a unitary board. Its Constitution provides that the Board of Directors shall consist of a minimum of 7 directors and a maximum of 10 directors. The Chairperson of the Board is an Independent Director and the role and functions of the Chairperson are separate from that of the CEO. In line with the shareholders' agreement, the two shareholders are each entitled to appoint two representatives to represent them on the Board of Bank One. All directors submit themselves to re-election at the Annual Meeting of Shareholders (AMS).

The Governance Nomination & Remuneration Committee regularly reviews the size, composition and skills set on the Board and ensures adequate succession of the directors. It also ensures the continued independence of the Bank's independent directors as well as the continued fitness and probity of all the directors. The Board believes that, given the shareholding structure and size of the Bank, there is a right mix both in terms of the categories (Executive, Non-executive and Independent) and skills of its directors.

Mr. Leonard Mususa concluded his tenure on 22 April 2024, having completed a six-year term on the Board. The employment contract of Mr. Mark Watkinson, serving as CEO and Executive Director, expired on 31 August 2024. Following Mr. Watkinson's departure, Mr. Guillaume Passebecq served as Interim CEO and Executive Director from 1 September 2024 to 10 October 2024 until Mr. Sunil Ramgobin assumed the role of CEO and Executive Director as of 11 October 2024.

The responsibilities of the Board of Directors are set out in its Board Charter which is reviewed on an annual basis by the Board. The responsibilities of the Board include, inter alia:

- Approving the objectives, strategies and business plans of the Bank;
- Retaining full and effective control over the Bank and being responsible for the appointment and monitoring of Management in its implementation of the Board's approved plans and strategies;
- Ensuring that policies and systems in place are effective to achieve a prudential balance between risks and returns to shareholders;
- Ensuring compliance with laws and regulations, including risk management and corporate governance practices and disclosure requirements;
- Exercising leadership, enterprise, integrity and judgement in directing the Bank.

CORPORATE GOVERNANCE

Board Committees

Five Board Committees, as set out below, have been set up by the Board to assist it in the discharge of its duties and responsibilities. The terms of reference of the Board Committees are reviewed on an annual basis to ensure that Board Committees are working within the remit of the laws, regulations, and best practices and are adequately focused to support the strategic direction of the Bank.

Board Audit Committee (BAC)

Frequency of Meetings	At least every quarter
Main Terms of Reference	Assist the Board in fulfilling its responsibilities in relation to the oversight of the quality and integrity of financial reporting, risk management and internal control, statutory compliance and audit functions. The full terms of reference of the BAC can be accessed on the Governance Section of the Bank's website: https://bankone.mu/en/corporate-governance/
Membership	Mr. Cyril Wong (Chairperson) Mr. Ignasi Serrahima Mr. Marc Israel

Board Risk Management Committee (BRMC)

Frequency of Meetings	At least every quarter
Main Terms of Reference	Advise the Board on the Bank's overall risk appetite, assess the level of the risks incurred against the Bank's risk appetite, oversee the senior management's implementation of the risk appetite framework, as well as necessary controls and mitigations, and assess / report on the state of the risk culture within the Bank. The full terms of reference of the BRMC can be accessed on the Governance Section of the Bank's website: https://bankone.mu/en/corporate-governance/
Membership	Mr. Lakshman Bheenick (Chairperson) Mr. Kihara Maina Mr. Cyril Wong Mr. Sunil Ramgobin Ms. Roselyne Renel

Board Credit Committee (BCC)

Frequency of Meetings	Monthly
Main Terms of Reference	Consider and decide on loans applications beyond the discretionary limits of the Management in line with the Credit Risk Policy. The BCC is also responsible to direct, monitor, review and consider all issues that may materially impact on the present and future quality of the Bank's credit risk management. The full terms of reference of the BCC can be accessed on the Governance Section of the Bank's website: https://bankone.mu/en/corporate-governance/
Membership	Ms. Gauri A. Gupta (Chairperson) Mr. Lakshman Bheenick Ms. Roselyne Renel

Board Strategy & Investment Committee (BSIC)	
Frequency of Meetings	At least every quarter
Main Terms of Reference	Assist the Board in validating and monitoring the implementation of the Bank's strategic projects and the required investment to achieve its strategic objectives. The full terms of reference of the BSIC can be accessed on the Governance Section of the Bank's website: https://bankone.mu/en/corporate-governance/
Membership	Mr. Kihara Maina (Chairperson) Mr. Lakshman Bheenick Mr. Ignasi Serrahima Mr. Sunil Ramgobin Ms. Roselyne Renel Mr. Marc Israel

Governance, Nomination & Remuneration Committee (GNRC)	
Frequency of Meetings	At least twice per annum
Main Terms of Reference	Oversee the governance framework of the Bank, approve and recommend to the Board, nominations and remuneration of directors and senior management, and oversee the execution of the HR strategy for the Bank. The full terms of reference of the GNRC can be accessed on the Governance Section of the Bank's website: https://bankone.mu/en/corporate-governance/
Membership	Ms. Gauri A. Gupta (Chairperson) Mr. Lakshman Bheenick Mr. Ignasi Serrahima Ms. Roselyne Renel

Principle 3: Director Appointment Procedures

Board Succession Planning

The Board, in consultation with the shareholders, is responsible for the succession planning and the appointment of new directors to the Board. A Board Succession Policy, which defines the guiding principles for a planned and orderly succession of directors and for filling in any unplanned vacancy on the Board, has been put in place to guide the Board around any recruitment of candidates to the Board. The succession planning of the directors is reviewed on an annual basis by the Governance, Nomination and Remuneration Committee.

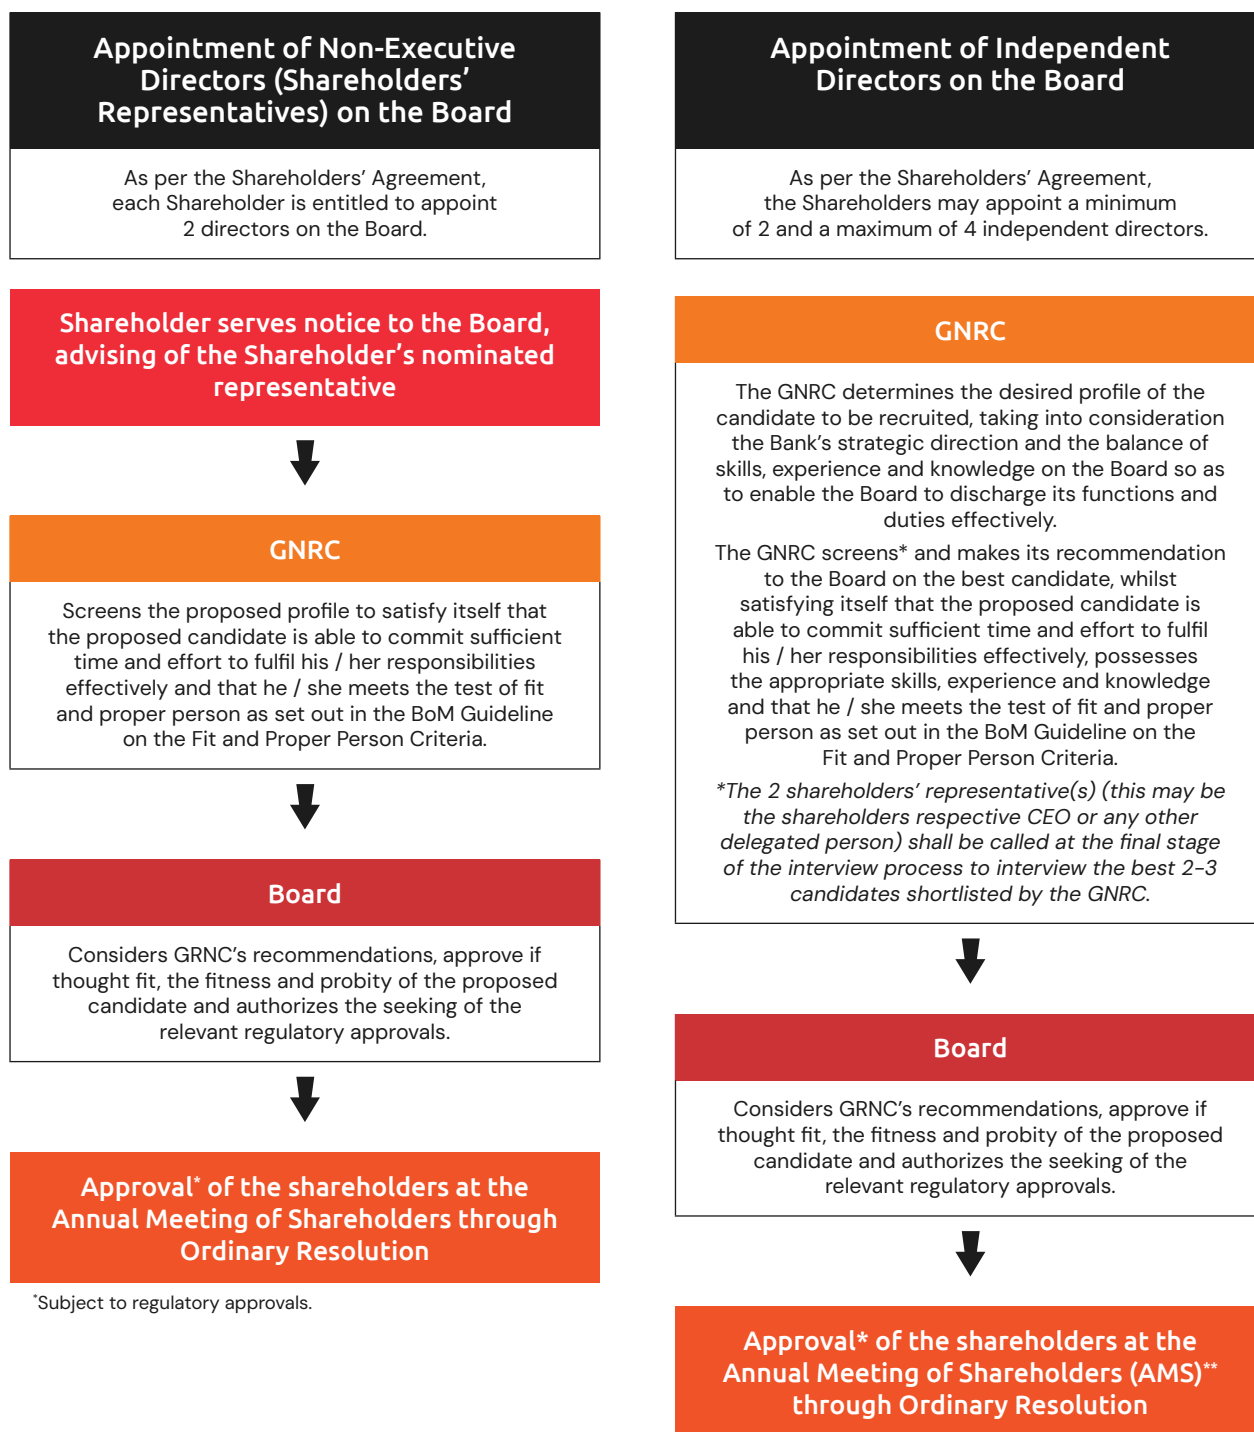

The Board uses a Board Skills Matrix to help it in identifying the competencies and skills desired by the Board as a whole to fulfil its role. The matrix is tailored to the unique circumstances and requirements of the Bank in terms of size, business maturity and competencies that the Board would require in light of the Bank's strategic direction. The Board Skills Matrix is reviewed every two years or whenever there is a change in board membership, whichever the earlier.

The Board Skills Matrix is used as a tool in the succession planning process, where the Matrix allows for an easy identification of any gaps in skills and competencies that may be created by the forthcoming retirement of a director(s). It is therefore used as a guidance in the search for a Board member who will best complement the current mix of capability on the Board and to identify any skills gap may be bridged through training and upskilling.

CORPORATE GOVERNANCE

Nomination & Appointment Process

The directors' nomination and appointment process is guided by the legal and regulatory requirements and the Bank's constitution and shareholders' agreement, and is as follows:

Board Induction, Training & Development

The Board ensures that new directors receive a proper induction so that they are familiarized, as soon as possible, with the Bank's operations, senior management, business environment and corporate strategy, as well as their fiduciary duties and responsibilities as directors. Directors' induction is run by the Company Secretary, whereby new directors receive a comprehensive pack, containing a brief presentation on the affairs of the Bank, the governance structure and conduct of meetings, the director's duties and responsibilities, the Bank's Constitution and by-laws, the minutes of the last Board meeting, and such other useful documents. The Company Secretary also arranges one-to-one meetings between the incoming director with the Board Chairperson, the Company Secretary, the CEO and with the Executive Management where the new Board member is briefed on the affairs of the Bank. Visits of some branches and the critical departments of the Bank are also arranged as part of the induction process.

Continuous training is essential to cope with the constant changes in the business environment. While directors have a duty to keep up to date with industry, legal and regulatory developments, it is also the responsibility of the Board to provide them with adequate training and development. In this respect, a training calendar is set on a yearly basis, taking into consideration the training needs of the directors and evolution in the banking business environment as well as the broader macroeconomic landscape.

Principle 4: Director duties, remuneration and performance

Directors are made aware of their legal duties upon their appointment and during the induction process and are reminded of same annually. Directors are guided by the relevant legislations, board charter, constitution, Code of Ethics and bank policies, including the Conflicts of Interests Policy and Related Party Transactions Policy.

Conflicts of Interests & Related party transactions

Transactions with related parties are guided by the Conflicts of Interests and Related Party Transactions Policies, as well as the Code of Ethics. Any related party transaction by directors and senior officers of the Bank are approved by the Board, which ensures that all such transactions are in line with market terms and conditions. A register of related party transactions is maintained by the Bank.

Information governance

The Bank's overall strategic direction, relating to information governance, information technology and security and related expenditures, is overseen by the Board Strategy and Investment Committee (BSIC). Refer to the Transformation & Digitalisation Section for further details.

The Board has approved a comprehensive Information Security Policy, which includes data protection principles, and such Policy is reviewed annually. Operational security-related matters are reported to, and considered at, the Management Integrated Risk Committee. Any risks areas are escalated to the Board Risk Management Committee for further discussion and mitigation.

Board Effectiveness Review

In line with the National Code of Corporate Governance (2016) and the BoM guideline on corporate governance, the Board has established a mechanism to review the effectiveness of the Board as a whole as well as that of its sub committees through a self-assessment questionnaire. The process also includes the Board's assessment of the performance of the Chairperson of the Board, a peer-to-peer evaluation as well as an assessment of the performance of the Company Secretary. The Board Effectiveness Review is carried out on a yearly basis and the results, along with an action plan on areas to be improved, are compiled and presented to the Board thereafter.

In December 2024, with the assistance of an external consultant, the directors conducted a session to reflect on their effectiveness as a Board. The Board is now in the process of implementing an agreed-upon way forward.

Remuneration

Directors' and senior executives' remuneration are dealt with by the Governance, Nomination & Remuneration Committee and approved by the Board of Directors. Independent and non-executive directors are remunerated in the form of a yearly retainer fee. An attendance fee is also paid for each meeting sitting. Such remuneration is commensurate with the size and complexity of the business, as well as the workload and responsibilities involved. The remuneration of non-executive directors is not linked to organizational performance.

The CEO is not remunerated for serving on the Board and Board Committees. In addition to his monthly salary, the CEO is entitled to an annual performance bonus based on the financial results of the Bank, as well as on his individual contribution thereto. He is also entitled to a long-term incentive, which is linked to long-term value creation and achievement of the Bank's strategic plan, payable at the end of every third financial year.

CORPORATE GOVERNANCE

Employees' remuneration is composed of a basic pay and a performance bonus, the main objective of which is to improve productivity by rewarding the staff for meeting and exceeding business goals, whilst operating in a cost effective and efficient manner within the risk culture of the Bank. A long-term incentive scheme is also in place for key management personnel – payments under such a scheme are over a period of three years with a view to retain high performers whilst ensuring a claw back mechanism.

- The CEO is not paid any additional remuneration for serving as a director. The employment contract of Mr. Mark Watkinson, serving as CEO and Executive Director, expired on 31 August 2024. Following Mr. Watkinson's departure, Mr. Guillaume Passebecq served as Interim CEO and Executive Director from 1 September 2024 to 10 October 2024 until Mr. Sunil Ramgobin assumed the role of CEO and Executive Director as of 11 October 2024.
- Mr. Leonard Mususa ceased to be a director on 22 April 2024.
- Mr. Cyril Wong appointed as member of the BRMC on 23 April 2024.
- Director fees for Mr. Lakshman Bheenick and Mr. Jerome de Chasteauneuf are paid to CIEL Finance Limited.

Principle 5: Risk governance and internal control

The Board is responsible for maintaining a robust risk management and internal control system. It ensures the necessary framework, processes and systems are in place to identify, measure, monitor and mitigate risks within the overall strategic direction of the Bank. The oversight of the Bank's risk management system has been delegated to the Board Risk Management Committee (BRMC). The Chairperson of the BRMC reports to the Board, at each Board Meeting, on matters dealt with at the Committee level to provide the Board with the necessary assurance that risks are effectively managed.

The BRMC reviews and approves, on an annual basis, the Bank's risk appetite, including key metrics and targets, which are then monitored by the risk department and reported back to the BRMC on a quarterly basis. Notwithstanding the quarterly reporting, an escalation matrix ensures timely reporting of risk events at various levels, depending on the severity of such events. The risk culture implementation is driven by the CEO, with regular progress updates being presented to the BRMC.

The Board has also approved the Bank's risk policies and guidelines, and management has been delegated the responsibility of the effective execution of the same through the implementation of appropriate procedures, to ensure that all risks are mitigated to an acceptable level, taking into consideration the Bank's risk appetite, objectives and strategies, as approved by the Board. Compliance to internally established policies and procedures, as well as with laws, regulations and codes in order to protect the Bank's assets and reputation, are also monitored and reported to the BRMC on a quarterly basis.

To further strengthen the risk management framework, the Board has also put in place a risk control self-assessment process, the implementation of which has been delegated to the operational risk unit.

Moreover, the Bank's internal control framework ensures the reliability of financial reporting, operations and systems. The Board is assisted in its responsibilities in this regard by the Board Audit Committee, which ensures that processes are in place to monitor the effectiveness of internal controls. In carrying out its duties, the committee receives regular reports from internal audit. The committee also meets with the Head of Internal Audit and the External Auditor on a quarterly basis and without management being present, to ensure that there are no unresolved material issues of concern.

The risk management section of this Annual Report, provides additional information on the risk management framework and risks that the Bank is exposed to.

Principle 6: Reporting with integrity

The Board of Directors is responsible for the preparation of an Annual Report, including financial statements, in accordance with applicable laws and regulations. Financial statements are also prepared in accordance with the IFRS Accounting Standards.

Directors' responsibilities in respect of the preparation of financial statements are disclosed in the statement of directors' responsibilities section of this Annual Report. The full Annual Report is available on the Bank's website: <https://bankone.mu/en/financial-information/>

Information regarding the Bank's financial, environmental, social and performance outlook are included in the Performance and Strategy sections of this annual report.

CORPORATE GOVERNANCE

Principle 7: Audit

Internal Audit

Bank One's Internal Audit function is established as an independent and objective assurance and advisory activity, designed to add value and improve Bank One's operations. It helps the Bank to accomplish its objectives by bringing a systematic, disciplined approach to the evaluation and improvement of risk management, control and governance processes.

In line with the Banking Act 2004 requirements, Bank One's Internal Audit functionally reports to the Board Audit Committee (BAC). The Head of Internal Audit is a standing invitee to all BAC meetings, as well as the Board Risk Management Committee meetings. He has unrestricted access to the BAC's Chairperson and members and regularly meets with the BAC, without the presence of Management.

The department's internal audit plan is approved annually by the BAC, and progress is reviewed on a quarterly basis. The Internal Audit team is granted unrestricted access to all the records of the Bank, its management, and employees.

Bank One's Internal Audit Methodology has been designed to align to the Global Internal Audit Standards, as prescribed by the Institute of Internal Auditors (IIA), while catering for a more agile audit approach to allow for ad-hoc requests by the Board and Management.

The department delivers on assurance and advisory activities using a risk-based approach, aligned to laws, regulations, and the Bank's strategic objectives. The Head of Internal Audit and senior members of the audit team are standing invitees on various management committees to aid the Bank in the timely identification of risk.

Internal Audit tracks and reports on the timelines and effectiveness of the implementation of audit recommendations.

During the year, Internal Audit has covered key risk areas within the Bank and which were further derived from its risk based annual planning methodology.

More information on the Bank's Internal Audit function can be found on the Bank's website under:

<https://bankone.mu/en/internal-audit/>

External Audit

Upon the recommendation of the Board Audit Committee (BAC), PricewaterhouseCoopers (PwC) was appointed as the Bank's external auditors for FY 2024, following a tender process. PwC replaced Deloitte, which had completed a five-year audit cycle. Four audit firms were invited to submit proposals and present to the BAC. The tenderers were evaluated based on factors such as their firm profiles, the quality of the proposed audit team, their banking experience, and their audit and quality assurance approach, among other criteria.

External auditors report on a quarterly basis to the BAC on the quarterly financial statements, and at year-end on the yearly audited financial results of the Bank. The BAC also regularly meets with External Auditors, without management being present.

The Board Audit Committee

During the year under review, the BAC reviewed internal audit reports on assignments carried out as per the approved internal audit plan and discussed the key findings. The audited results and quarterly financial results were also looked into by the Committee. No significant issues arose in relation to the financial statements.

The BAC ensures that both Internal and External Auditors' independence and objectivity are maintained. With regards to External Auditors, any non-audit services provided by the latter are subject to the approval of the BAC, which evaluates the terms of the engagement, the progress of execution and the reporting of such services. Non-audit services provided by PwC during the year pertained to assistance regarding AML CFT review and tax advisory services, forensic review, internal control review and trainings.

The fees paid/payable to PwC for audit and other services are detailed in the other statutory disclosures section of this Annual Report.

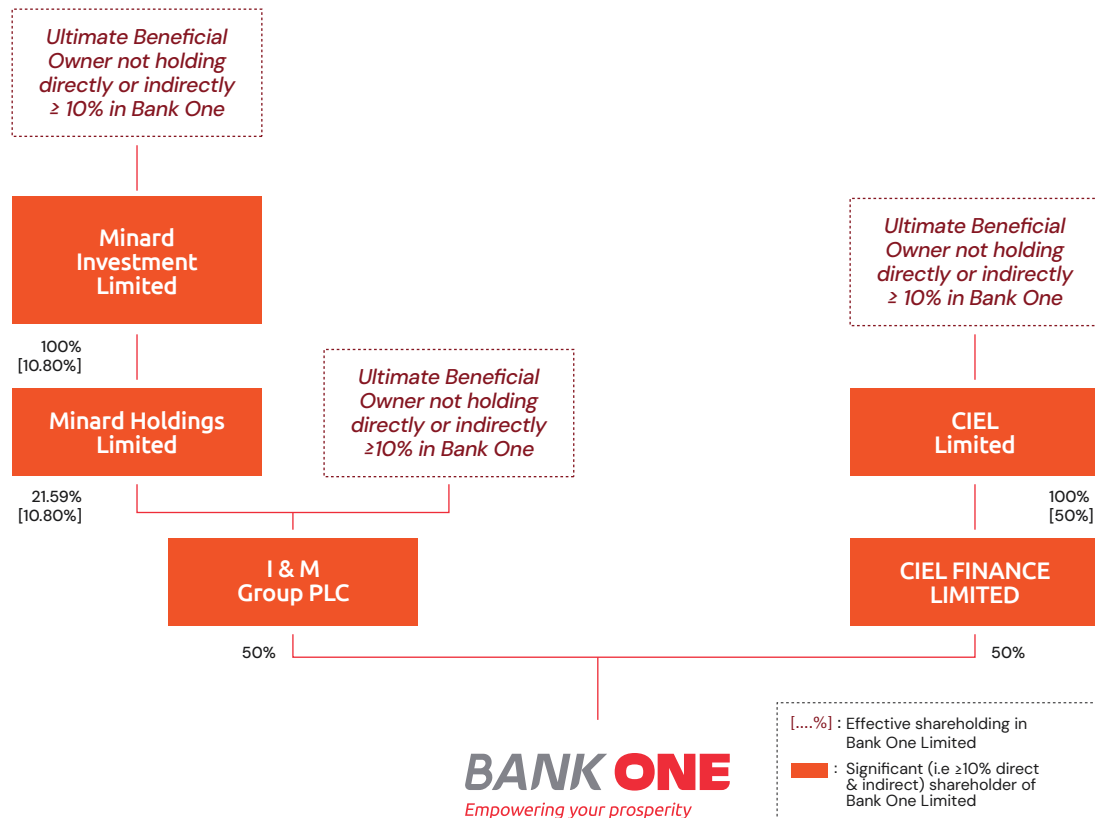

Principle 8: Relationships with shareholders and other key stakeholders

<p>Shareholders</p> <p>Each shareholder has two representatives sitting on the Board of the Bank. The Bank also engages with the shareholders on a regular basis to keep them apprised on the affairs of the Bank and progress against the set KPIs. Given the shareholding structure and close and frequent communication with the two shareholder groups, written resolutions of the shareholders are passed in lieu of holding an Annual General Meeting</p>	<p>Financial Partners</p> <p>Communication is usually around the Bank's financial performance and compliance with the terms and conditions set out by the financial partners which the Bank's strives to comply to at all times.</p>	<p>Regulators</p> <p>The Bank, by nature of its activities, is a highly regulated entity. Bank One Limited strives to comply with all regulatory provisions and guidelines in the conduct of its activities.</p>
<p>Government Agencies & Authorities</p> <p>The Bank builds and maintains close relationships with this stakeholder group through ongoing and consistent communication to ensure credible and effective relations are maintained, ensuring a connected approach which boosts trust and commitment.</p>	<p>Employees</p> <p>As a responsible employer, the Bank is committed to fostering a supportive work environment for its employees. To this end, several initiatives were implemented, including regular town halls, which serve as a communication channel to address queries and provide updates on the progress of our Strategic Plan. Additionally, the Culture Revamp program will play a crucial role in furthering these efforts.</p>	<p>Customers</p> <p>In addition to regular customer satisfaction surveys, each line of business regularly holds forums with their clients, whether in the form of investors' circles, breakfast meetings, etc. The Customer Experience team also conduct interviews and meetings with clients to obtain feedback on the quality of service from the Bank.</p>
<p>Suppliers</p> <p>The Bank engages with third party suppliers to support its business offerings and operations by leveraging on skills and expertise not available internally. Third party risks are managed by the procurement and supplier risk management policy which sets forth the principles and governance structure on which the Bank operates on.</p>	<p>Community</p> <p>The Bank remained committed towards supporting the community of Pointe Aux Sables in collaboration with its 2 long-standing partners which are the Pere Henri Souchon School and the Jean Blaise Learning Centre. These two NGOs cater for the educational support of some 150 children all coming from an unprivileged background. In 2024, the Bank has been a strong partner to these NGOs in organising some notable CSR events for the students such as the Annual Health Awareness Day, Sports Day, provision IT literacy skills, distribution of school materials and the Annual Christmas Party. The Bank shall remain supportive in 2025 as part of its longer-term plan.</p>	<p>Media</p> <p>The Bank continues to establish and nurture a strong relationship with the local media whilst developing good media relations in Sub-Saharan Africa (SSA) for its future strategic plans. It also leverages on CIEL and I&M Group Communications support and their partner networks as and when required.</p>

CORPORATE GOVERNANCE

Shareholding structure and shareholders

Bank One Limited's share capital stood at MUR 1,456,456,000, represented by 14,564,560 ordinary shares of no par value, held equally between CIEL Finance Limited and I&M Group PLC. The shareholding structure is illustrated below:

CIEL FINANCE LIMITED

5th Floor, Ebène Skies, Rue De L'institut, Ebène, Mauritius

CIEL Finance is the financial services cluster of CIEL, actively involved in 2 sub-sectors, namely banking and fiduciary services.

With a strategic presence in Sub-Saharan Africa and positioning itself within the financial hub of the Indian Ocean, CIEL Finance supports its regional development while promoting synergies across financial operators.

CIEL is an international Mauritian Group, listed on the Stock Exchange of Mauritius and on the SEM Sustainability Index. The Group invests and operates in 6 strategic sectors, namely Agriculture, Finance Healthcare, Hospitality, Property and Textile. Founded in 1912, CIEL is today present in more than 10 countries across Africa and Asia and employs 37,600 talented individuals. With a market capitalization of about MUR 12.4Bn and a consolidated turnover of MUR 35.2Bn for the 12 months' period ended 30 June 2024, CIEL's portfolio was valued at MUR 24.7Bn and the group total assets at MUR 105.8Bn as at 30 June 2024.

I&M GROUP PLC

1 Park Avenue, 1st Parklands Avenue, Nairobi, Kenya

I&M Group PLC ("I&M Group") is the parent entity for the group's banking and non-banking subsidiaries in East Africa. I&M Group has interests in Banking and Financial services, Insurance, Property and Real Estate, through its subsidiaries, joint venture and associates. Incorporated in 1950, it is one of the oldest companies to be listed on the Nairobi Securities Exchange and is regulated by the Nairobi Securities Exchange, the Capital Markets Authority in Kenya and by the Central Bank of Kenya as a non-operating holding company.

The Group employs more than 3,100 staff spread across the five countries: Kenya, Tanzania, Rwanda, Uganda and in Mauritius (as a joint venture). With a network of over 230 branches and ATMs, the Group's subsidiaries offer the full range of personal and business banking solutions including wealth management and corporate finance advisory services. As of 31 December 2024, I&M Group's market capitalization was approximately USD 434 million while Total Assets were USD 4.3bn based on the last reporting date of 30 September 2024.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF FINANCIAL STATEMENTS

The directors are responsible for the preparation of financial statements, which give a true and fair view of the financial position, financial performance and cash flows of the Bank, and which comply with the Mauritius Companies Act 2001, the Banking Act 2004, the Financial Reporting Act 2004 and the IFRS Accounting Standards.

In preparing those financial statements, the directors are required to:

- Select suitable accounting policies and then apply them consistently.
- Make judgements and estimates that are reasonable and prudent.
- State whether IFRS Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements.
- Prepare the financial statements on the going concern basis, unless it is inappropriate to presume that the Bank will continue in business.

The directors are also responsible for safeguarding the assets of the Bank and hence taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors confirm that they have complied with the above requirements in preparing the Annual Report and financial statements. The Board acknowledges its responsibility for ensuring the preparation of the financial statements, in accordance with the IFRS Accounting Standards and the responsibility of external auditors to report on these financial statements. The Board also acknowledges its responsibility to ensure the maintenance of adequate accounting records and an effective system of internal controls and risk management.

Approved by the Board of Directors on 04 March 2025 and signed on its behalf by:

Roselyne Renel

Independent Chairperson

Tchang Fa Wong Sun Thiong

Chairman of the Board Audit Committee

Moonesar Ramgobin

Chief Executive Officer

STATEMENT OF MANAGEMENT'S RESPONSIBILITIES IN RESPECT OF FINANCIAL STATEMENTS

The Bank's financial statements, presented in this Annual Report, have been prepared by management, who is responsible for their integrity, consistency, objectivity and reliability. International Accounting Standards/ IFRS Accounting Standards as well as the requirements of the Banking Act 2004 and the guidelines issued thereunder, have been applied. Management has exercised its judgement and made the best estimates where deemed necessary.

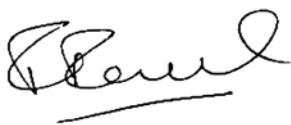

The Bank has designed and maintained its accounting systems, related internal controls and supporting procedures, to provide reasonable assurance that financial records are complete and accurate, and that assets are safeguarded against loss from unauthorized use or disposal. These supporting procedures include careful selection and training of qualified staff, the implementation of organizational and governance structures providing a well-defined division of responsibilities, authorization levels and accountability for performance, and the communication of the Bank's policies, procedures manuals and guidelines of the Bank of Mauritius throughout the Bank.

The Bank's Board of Directors, acting in part through the Board Audit Committee and the Board Risk Management Committee, oversees management's responsibility for financial reporting, internal controls, assessment and control of major risk areas, and assessment of significant and related party transactions.

The Bank's Internal Auditor, who has full and free access to the Audit Committee, conducts a well-designed programme of internal audits. In addition, the Bank's compliance function maintains policies, procedures and programmes directed at ensuring compliance with regulatory requirements.

Pursuant to the provisions of the Banking Act 2004, the Bank of Mauritius makes such examination and inquiry into the operations and affairs of the Bank as it deems necessary.

The Bank's External Auditor, PricewaterhouseCoopers, has full and free access to the Board of Directors and its committees, to discuss the audit and matters arising therefrom, such as their observations on the fairness of financial reporting and the adequacy of internal controls.

ROOTED IN EXPERTISE, REACHING FOR TOMORROW

Independent auditor's report

to the shareholders of Bank One Limited

Report on the audit of the financial statements

Our Opinion

In our opinion, the financial statements give a true and fair view of the financial position of BANK ONE LIMITED (the "Bank") as at 31 December 2024, and of its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards and in compliance with the Mauritian Companies Act 2001.

What we have audited

The financial statements of BANK ONE LIMITED set out on pages 116 to 214 comprise:

- the statement of financial position as at 31 December 2024;
- the statement of profit or loss and other comprehensive income for the year then ended;
- the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include material accounting policy information and other explanatory information.

Certain required disclosures have been presented elsewhere in the annual report, rather than in the notes to the financial statements. These disclosures are cross-referenced from the financial statements and are identified as audited.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Bank in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (the "IESBA Code"). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Independent auditor's report

to the shareholders of Bank One Limited

Report on the audit of the financial statements (Continued)

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Expected credit losses under IFRS 9 (refer to notes 1.2(g) and 2(b) of the financial statements)</p> <p>This is an area of focus because the determination of expected credit losses ("ECL") requires the use of complex models and significant assumptions about future economic conditions and credit behaviour. The key areas of significant management judgement within the ECL calculations include:</p> <ul style="list-style-type: none"> • Evaluation of significant increases in credit risk ("SICR"); • Input assumptions applied to estimate the probability of default ("PD"), exposure at default ("EAD") and loss given default ("LGD"); • Assessment of ECL recognised for stage 3 exposures; • Incorporation of forward-looking information into the SICR assessment and ECL measurement; and • Likelihood of economic scenarios. 	<p>We performed the following procedures on the ECL, with the assistance of our actuarial experts.</p> <p>We obtained an understanding and tested the operating effectiveness of the relevant controls relating to the approval of credit facilities, subsequent monitoring of credit facilities, review of data inputs on the ECL model, reconciliations performed and collateral management.</p> <p>We assessed the appropriateness of the input assumptions applied within the PD, LGD and EAD models (including forward looking information), in compliance with the requirements of IFRS 9, 'Financial Instruments' (IFRS 9).</p> <p>In addition, our procedures include assessing the appropriateness of the ECL model through reperformance.</p> <p>We assessed whether the stage classification of stage 1 and stage 2 exposures was appropriate in terms of the Bank's accounting policy on SICR at the end of the reporting period. This procedure included the review of the Bank's Watchlist.</p> <p>For Stage 3 exposures, we considered the classification under IFRS 9 and assessed the appropriateness of the inputs used for a sample of clients. We independently recalculated the ECL based on our assessment of the expected cash flows and recoverability of collateral at an individual exposure level for a sample of clients. Where exposures are collateralised, we tested the Bank's legal rights of the collateral by inspecting legal agreements and we obtained the valuation reports from certified valuers and support the value assigned to these collaterals.</p> <p>We also assessed the adequacy of the disclosures in the annual report in accordance with IFRS 9.</p>

Independent auditor's report

to the shareholders of Bank One Limited

Report on the Audit of the Financial Statements (Continued)

Other Information

The directors are responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards and in compliance with the Mauritian Companies Act 2001, the Mauritian Banking Act 2004 and regulations and guidelines issued by the Bank of Mauritius and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Bank or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for overseeing the financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report

to the shareholders of Bank One Limited

Report on the Audit of the Financial Statements (Continued)

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Mauritian Companies Act 2001

The Mauritian Companies Act 2001 requires that in carrying out our audit we consider and report to you on the following matters. We confirm that:

- (a) we have no relationship with or interests in the Bank other than in our capacity as auditor, tax advisor and business advisor;
- (b) we have obtained all the information and explanations we have required; and
- (c) in our opinion, proper accounting records have been kept by the Bank as far as appears from our examination of those records.

Mauritian Banking Act 2004

The Mauritian Banking Act 2004 requires that in carrying out our audit we consider and report to you on the following matters. We confirm that:

- (a) in our opinion, the financial statements have been prepared on a basis consistent with that of the preceding year and are complete, fair and properly drawn up and comply with the Mauritian Banking Act 2004 and regulations and guidelines issued by the Bank of Mauritius; and
- (b) the explanations or information called for or given to us by the officers or agents of the Bank were satisfactory.

Mauritian Financial Reporting Act 2004

Our responsibility under the Mauritian Financial Reporting Act 2004 is to report on the compliance with the Code of Corporate Governance ("Code") disclosed in the annual report and assess the explanations given for non-compliance with any requirement of the Code. From our assessment of the disclosures made on corporate governance in the annual report, the Bank has, pursuant to section 75 of the Mauritian Financial Reporting Act 2004, complied with the requirements of the Code.

Other Matter

This report, including the opinion, has been prepared for and only for the Bank's shareholders, as a body, in accordance with Section 205 of the Mauritian Companies Act 2001 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Statement of Changes in Equity

for the year ended 31 December 2024

Revaluation surplus

Revaluation surplus comprises of changes in the carrying amount arising on revaluation of property and equipment.

Statutory reserve

Statutory reserve comprises of accumulated annual transfer of 15% of the net profit for the year in line with Section 21(1) of the Mauritian Banking Act 2004.

Fair value reserve

Fair value reserve comprises of the cumulative net change in the fair value of financial assets measured at FVTOCI that has been recognised in other comprehensive income until the investments are derecognised or impaired.

General Banking Reserve

This relates to a general provision for both performing and non-performing exposures in line with the Guideline on classification, provisioning and write-off of credit exposures revised August 2024. In addition to the general provisions for performing exposures, macro-prudential provisions are also recognised on certain sectors for performing exposures.

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
General provision	282,259	-	-
Additional Macro prudential	66,253	69,780	68,906
	348,512	69,780	68,906

Dividend

Pursuant to the Board meeting held on 18 April 2024, a final dividend of Rs.354 million (Rs24.3056 per share) (2023: Rs266.5 million) was approved for distribution as dividend to shareholders and was paid in June 2024, out of retained earnings, after all regulatory approvals were obtained.

Net increase/(decrease) in cash and cash equivalents	7,194,055	2,382,687	(2,783,187)
Cash and cash equivalents at end of year (note 12)	17,242,835	10,048,780	7,666,093

The notes on pages 121 to 214 form an integral part of these financial statements.

Notes to the Financial Statements

for the year ended 31 December 2024

1 General Information

Bank One Limited (the "Bank") is a privately owned entity incorporated on 26 March 2002 in the Republic of Mauritius and licensed with the Bank of Mauritius to carry out Banking business. The Bank is owned jointly by Ciel Finance Ltd and I&M Group Plc, with 50% shareholding each. The Bank is domiciled in the Republic of Mauritius with registered address as follows:

BANK ONE LIMITED
16, Sir William Newton Street
Port Louis
Mauritius

1.1 Application of New and Revised IFRS Accounting Standards

New and amended standards adopted by the Bank

The Bank has applied the following standards and amendments for the first time for its annual reporting period commencing 1 January 2024:

- Classification of Liabilities as Current or Non-current and Non-current liabilities with covenants – Amendments to IAS 1;
- Lease Liability in Sale and Leaseback – Amendments to IFRS 16; and
- Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7.

The amendments listed above did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

New IFRS Accounting Standards and IFRIC® Interpretations not yet adopted.

Certain new accounting standards and amendments to accounting standards have been published that are not mandatory for 31 December 2024 reporting periods and have not been early adopted by the Bank. These have been listed below:

- Amendments to IAS 21 – Lack of Exchangeability (effective for annual periods beginning on or after 1 January 2025)
- Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7 (effective for annual periods beginning on or after 1 January 2026)
- Annual improvements to IFRS – Volume 11 (effective for annual periods beginning on or after 1 January 2026)
- IFRS 18 Presentation and Disclosure in Financial Statements (effective for annual periods beginning on or after 1 January 2027)

The directors anticipate that these standards and interpretation will be applied in the Bank's financial statements at the above effective dates in future periods and have not yet assessed the potential impact of the application of these amendments.

1.2 Material Accounting Policy Information

The material accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

The financial statements of Bank One Limited comply with the Mauritius Companies Act 2001, the regulations and guidelines issued by the Bank of Mauritius, the Mauritian Financial Reporting Act 2004 and the Mauritian Banking Act 2004 and have been prepared in accordance with IFRS Accounting Standards, Guidelines and Guidance Notes issued by the Bank of Mauritius, in so far as the operations of the Bank are concerned. Where necessary, comparative figures in the notes to the financial statements have been amended to confirm with changes in current year's presentation.

The financial statements have been prepared under the historical cost convention, except for the following assets and liabilities that are measured at fair value:

- 1) Financial assets measured at fair value through other comprehensive income;
- 2) Certain classes of property and equipment – measured at revalued amount;
- 3) Defined pensions benefits plan assets measured at fair value; and
- 4) Derivative assets and liabilities held for risk management purposes (FVTPL).

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(a) Basis of preparation (Cont'd)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The preparation of financial statements in conformity with IFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires the directors to exercise judgement in the process of applying the Bank's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 1.3.

(b) Foreign currency translation

(i) Functional and presentation currency

These financial statements are prepared in Mauritian Rupees (Rs), which is the Bank's functional and presentation currency. Except as indicated, the financial statements and related notes presented in Mauritian rupees have been rounded to the nearest thousand.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss. Transactions denominated in foreign currencies are accounted for at the closing rate of exchange ruling at the date of the transaction.

Monetary assets and liabilities expressed in foreign currencies are reported at the closing rate of exchange ruling at the reporting date. Differences arising from reporting monetary items are dealt with in the profit or loss.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date the fair value was determined.

Translation differences on non monetary items, such as investments in equities classified as fair value through other comprehensive income, are included in the fair value reserve in other comprehensive income.

(c) Interest income and expense

Interest income and expense for all financial instruments except for those classified as held for trading or those measured or designated as at fair value through profit or loss are recognised in 'Net interest income' as 'Interest income' and 'Interest expense' in the profit or loss using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Bank estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts. When a receivable is impaired, the Bank reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for expected credit losses ("ECL")). The interest is suspended and recognised only upon receipt. If, in subsequent reporting periods the credit risk on the credit impaired financial instrument improves so that the financial asset is no longer credit impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(d) Fees, commissions and dividend income

Fees and commissions are generally recognised on an accrual basis when the service has been provided. Other fee and commission expenses relate mainly to transaction and service fees, which are expensed as the services are rendered. Loan commitment fees for loans that are likely to be drawn down are deferred (together with related direct costs) and recognised as an adjustment to the effective interest rate on the loan. Loan syndication fees are recognised as revenue when the syndication has been completed and the Bank has retained no part of the loan package for itself or has retained a part at the same effective interest rate as the other participants. Commission and fees arising from negotiating, or participating in the negotiation of, a transaction for a third party – such as the arrangement of the acquisition of shares or other securities are recognised on completion of the underlying transaction.

Portfolio and other management advisory and service fees are recognised based on the applicable service contracts, usually on a time-apportioned basis. Performance-linked fees or fee components are recognised when the performance criteria are fulfilled.

Dividend income is recognised when the Bank's right to receive the dividend is established.

(e) Net gain/(loss) on dealing in foreign currencies and derivatives

Net gain/(loss) on dealing in foreign currencies and derivatives comprise of net gains on foreign exchange transactions, fair value gain/(loss) on derivatives and translation differences.

(f) Financial Instruments

Financial Assets

All financial assets are recognised and derecognised on a trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for those financial assets classified as at FVTPL. Transaction costs directly attributable to the acquisition of financial assets classified as at FVTPL are recognised immediately in profit or loss. For all financial assets the amount presented on the statement of financial position represent all amounts receivable including interest accruals.

All recognised financial assets that are within the scope of IFRS 9 are required to be subsequently measured at amortised cost or fair value on the basis of the Bank's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Specifically:

- debt instruments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding (SPPI), are subsequently measured at amortised cost;
- debt instruments that are held within a business model whose objective is both to collect the contractual cash flows and to sell the debt instruments, and that have contractual cash flows that are SPPI, are subsequently measured at fair value through other comprehensive income (FVTOCI);
- all other debt instruments (e.g. debt instruments managed on a fair value basis, or held for sale) and equity investments are subsequently measured at FVTPL.

However, the Bank may make the following irrevocable election / designation at initial recognition of a financial asset on an asset-by-asset basis:

- the Bank may irrevocably elect to present subsequent changes in fair value of an equity investment that is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which IFRS 3 applies, in OCI; and
- the Bank may irrevocably designate a debt instrument that meets the amortised cost or FVTOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch (referred to as the fair value option).

Debt instruments at amortised cost or at FVTOCI

The Bank assesses the classification and measurement of a financial asset based on the contractual cash flow characteristics of the asset and the Bank's business model for managing the asset.

For an asset to be classified and measured at amortised cost or at FVTOCI, its contractual terms should give rise to cash flows that are SPPI.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(f) Financial Instruments (Cont'd)

Financial Assets (Cont'd)

Debt instruments at amortised cost or at FVTOCI (Cont'd)

For the purpose of SPPI test, principal is the fair value of the financial asset at initial recognition. That principal amount may change over the life of the financial asset (e.g. if there are repayments of principal). Interest consists of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin. The SPPI assessment is made in the currency in which the financial asset is denominated.

Contractual cash flows that are SPPI are consistent with a basic lending arrangement. Contractual terms that introduce exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI. An originated or an acquired financial asset can be a basic lending arrangement irrespective of whether it is a loan in its legal form.

An assessment of business models for managing financial assets is fundamental to the classification of a financial asset. The Bank determines the business models at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Bank's business model does not depend on management's intentions for an individual instrument, therefore the business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Bank has more than one business model for managing its financial instruments which reflect how the Bank manages its financial assets in order to generate cash flows. The Bank's business models determine whether cash flows will result from collecting contractual cash flows, selling financial assets or both.

The Bank considers all relevant information available when making the business model assessment. However this assessment is not performed on the basis of scenarios that the Bank does not reasonably expect to occur, such as so-called 'worst case' or 'stress case' scenarios. The Bank takes into account all relevant evidence available such as:

- how the performance of the business model and the financial assets held within that business model are evaluated and reported to the Bank's key management personnel;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way in which those risks are managed; and
- how managers of the business are compensated (e.g. whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).

At initial recognition of a financial asset, the Bank determines whether newly recognised financial assets are part of an existing business model or whether they reflect the commencement of a new business model. The Bank reassesses its business models each reporting period to determine whether the business models have changed since the preceding period. There have been no such changes in the current and prior years.

When a debt instrument measured at FVTOCI is derecognised, the cumulative gain/loss previously recognised in OCI is reclassified from equity to profit or loss.

Debt instruments that are subsequently measured at amortised cost or at FVTOCI are subject to impairment.

Financial assets at FVTPL

Financial assets at FVTPL are:

- assets with contractual cash flows that are not SPPI; or/and
- assets that are held in a business model other than held to collect contractual cash flows or held to collect and sell; or
- assets designated at FVTPL using the fair value option.

These assets are measured at fair value, with any gains/losses arising on remeasurement recognised in profit or loss.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(f) Financial Instruments (Cont'd)

Equity instruments designated at FVTOCI

On initial recognition, the Bank may make an irrevocable election (on an instrument by instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Bank manages together and has evidence of a recent actual pattern of short term profit taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the fair value reserve. The cumulative gain or loss is not be reclassified to profit or loss on disposal of the equity investments, instead, it is transferred to retained earnings.

Financial instruments – initial recognition and subsequent measurement

Reclassifications

If the business model under which the Bank holds financial assets changes, the financial assets affected are reclassified. The classification and measurement requirements related to the new category apply prospectively from the first day of the first reporting period following the change in business model that results in reclassifying the Bank's financial assets. During the current financial year and previous accounting period there was no change in the business model under which the Bank holds financial assets and therefore no reclassifications were made. Changes in contractual cash flows are considered under the accounting policy on "Modification and derecognition of financial assets".

Foreign exchange gains and losses

The carrying amount of financial assets that are denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. For financial assets measured at amortised cost, debt instruments measured at FVTOCI and derivatives, exchange differences are recognised in profit or loss in the 'Net gain on dealing in foreign currencies and derivatives' line item.

Cash and cash equivalents

Cash and cash equivalents' include notes and coins on hand, balances held with central banks and highly liquid financial assets with original maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value, and are used by the Bank in the management of its short-term commitments. For the purposes of presentation in the statements of cash flows, cash and cash equivalents comprise cash-in-hand, cash at bank, highly liquid investments and bank overdrafts. Bank overdrafts are shown under current liabilities on the statement of financial position.

Cash and cash equivalents are carried at amortised cost in the statement of financial position.

Investment securities

The investment securities include:

- debt investment securities measured at amortised cost; these are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortised cost using the effective interest method;
- debt securities measured at FVTOCI; and
- equity investment securities designated as at FVTOCI.

For debt securities measured at FVTOCI, gains and losses are recognised in other comprehensive income, except for the following, which are recognised in profit or loss in the same manner as for financial assets measured at amortised cost:

- interest revenue using the effective interest method;
- ECL and reversals; and
- foreign exchange gains and losses.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(f) Financial Instruments (Cont'd)

Financial instruments – initial recognition and subsequent measurement (Cont'd)

When debt security measured at FVOCI is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss.

The Bank elects to present changes in the fair value of certain investments in equity instruments that are not held for trading in OCI. The election is made on an instrument-by-instrument basis on initial recognition and is irrevocable.

Fair value gains and losses on such equity instruments are never reclassified to profit or loss and no impairment is recognised in profit or loss. Cumulative gains and losses recognised in OCI are transferred to retained earnings on disposal of an investment.

Financial liabilities

Debt and equity instruments that are issued are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

A financial liability is a contractual obligation to deliver cash or another financial asset or to exchange financial assets or financial liabilities with another counterparty under conditions that are potentially unfavourable to the Bank or a contract that will or may be settled in the Bank's own equity instruments and is a non-derivative contract for which the Bank is or may be obliged to deliver a variable number of its own equity instruments, or a derivative contract over own equity that will or may be settled other than by the exchange of a fixed amount of cash (or another financial asset) for a fixed number of the Bank's own equity instruments.

Financial liabilities are classified as either financial liabilities 'at FVTPL' or 'other financial liabilities'. For all financial liabilities the amount presented on the statement of financial position represent all amounts payable including interest accruals.

Other financial liabilities, including deposits and borrowings, are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortised cost using the effective interest method.

Acceptances, letters of credit and Financial guarantee contracts

Acceptances and letters of credit

Acceptances comprise undertakings by the Bank to pay bills of exchange drawn on customers. The Bank expects most acceptances to be settled simultaneously with the reimbursement from customers. Acceptances and letters of credit are accounted for as off-balance sheet items and are disclosed as contingent liabilities and commitments.

Financial guarantee contracts

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and other bodies on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantees are initially recognised in the financial statements at fair value on the date the guarantee was given. The fair value of a financial guarantee would be the premium agreed on initial recognition, which is at arm's length. No receivable for the future premiums is recognised. Subsequent to initial recognition, the Bank's liabilities under such guarantees are measured at the higher of the initial amount, less amortisation calculated to recognise in profit or loss the fee income earned on a straight-line basis over the life of the guarantee and the best estimate of the expenditure required to settle the guarantee. These estimates are determined based on experience of similar transactions and history of past losses, supplemented by the judgement of management. Any increase in the liability relating to guarantees is taken to profit or loss.

Impairment of financial assets

The Bank applies a three-stage approach to measuring expected credit losses (ECL) on debt instruments accounted for at amortised cost and FVOCI. Assets migrate through the following three stages based on the change in credit quality since initial recognition:

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(f) Financial Instruments (Cont'd)

Impairment of financial assets (Cont'd)

i) Stage 1: 12-months ECL

For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognised.

ii) Stage 2: Lifetime ECL – not credit impaired

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognised.

iii) Stage 3: Lifetime ECL – credit impaired

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For financial assets that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount.

At each reporting date, the Bank assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition.

In determining whether credit risk has increased significantly since initial recognition, the Bank uses its internal credit risk grading system, external risk ratings and forecast information to assess deterioration in credit quality of a financial asset.

The Bank assesses whether the credit risk on a financial asset has increased significantly on an individual or collective basis. For the purposes of a collective evaluation of impairment, financial assets are grouped on the basis of shared credit risk characteristics, taking into account instrument type, credit risk ratings, date of initial recognition, remaining term to maturity, industry, geographical location of the borrower and other relevant factors.

The amount of ECL is measured as the probability-weighted present value of all cash shortfalls over the expected life of the financial asset discounted at its original effective interest rate. The cash shortfall is the difference between all contractual cash flows that are due to the Bank and all the cash flows that the Bank expects to receive. The ECL is recognised in the provision account.

The Bank considers its historical loss experience and adjusts this for current observable data. In addition, the Bank uses reasonable and supportable forecasts of future economic conditions including experienced judgement to estimate the amount of an expected impairment loss. IFRS 9 introduces the use of macroeconomic factors which include, but is not limited to, unemployment, interest rates, gross domestic product, inflation and commercial property prices, and requires an evaluation of both the current and forecast direction of the economic cycle. Incorporating forward-looking information increases the level of judgement as to how changes in these macroeconomic factors will affect ECL. The methodology and assumptions including any forecasts of future economic conditions are reviewed regularly.

If, in a subsequent period, credit quality improves and reverses any previously assessed significant increase in credit risk since origination, then the provision for doubtful debts reverts from lifetime ECL to 12-months ECL.

In the case of the new asset category for debt instruments measured at FVTOCI, the measurement of ECL is based on the three-stage approach as applied to financial assets at amortised cost. The Bank recognises the provision charge in profit and loss, with the corresponding amount recognised in other comprehensive income, with no reduction in the carrying amount of the asset in the statement of financial position.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(g) Classes of financial instruments

- (i) The Bank classifies the financial instruments into classes that reflect the nature of information and take into account the characteristics of those financial instruments.

The classification is disclosed in the table below:

Impairment of financial assets

Category	Class		Subclasses
Financial Assets	Loans and advances at amortised cost	Loans and advances to Banks	Term Loans
		Loans to individuals	Credit cards
			Mortgages
			Other Retail Loans
		Loans and advances to customers	Corporate Customers
			Offshore Retail and Corporate Loans
			Corporate Customers
	Securities purchased under agreement to resell	Loans to corporate entities	Corporate Customers
	Investments at amortised cost	Investment securities Debt instruments	Unlisted
	Investments at FVTOCI	Investment securities Debt instruments	Unlisted
		Investment securities Equity instruments	Unlisted
	Derivative financial assets (FVTPL)	Derivatives held for risk management	Unlisted
	Other financial assets at amortised cost	Cash and cash equivalents	Unlisted

Category	Class		Subclasses
Financial Liabilities	Financial liabilities at amortised cost	Deposits from customers	Retail Corporate International
	Derivatives financial liabilities (FVTPL)	Derivatives held for risk management	Unlisted
	Financial liabilities at amortised cost	Other borrowed funds	Local and foreign Banks
		Subordinated liabilities	
Off balance sheet financial Instruments	Loans commitments	Loans commitments	Retail Corporate International Private
	Guarantees, acceptances and other financial facilities	Acceptances Guarantees Letter of credit	Retail Corporate International Private

- (ii) Credit risk measurement

Loans and advances

The estimation of credit exposure for risk management purposes is complex and requires the use of models, as the exposures vary with changes in market conditions, expected cash flows and the passage of time. The assessment of credit risk of a portfolio of assets entails further estimations as to the likelihood of defaults occurring, of the associated loss ratios and of default correlations between counterparties. The Bank measures credit risk using Probability of Default (PD), Exposure at Default (EAD) and Loss Given Default (LGD). This is similar to the approach used for the purposes of measuring Expected Credit Loss (ECL) under IFRS 9. Refer to "Measuring ECL- Explanation of inputs, assumptions and estimation techniques".

Expected credit loss measurement (ECL)

IFRS 9 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarised below:

- A financial instrument that is not credit-impaired on initial recognition is classified in 'stage 1' and has its credit risk continuously monitored by the Bank.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(g) Classes of financial instruments (Cont'd)

(ii) Credit risk measurement (Cont'd)

Expected credit loss measurement (ECL) (Cont'd)

- If a significant increase in credit risk ('SICR') since initial recognition is identified, the financial instrument is moved to 'stage 2' but is not yet deemed credit-impaired.
- If the financial instrument is credit-impaired, the financial instrument is then moved to 'stage 3'.
- Financial instruments in stage 1 have their ECL measured at an amount equal to the portion of lifetime expected credit losses that result from default events within the next 12 months. Instruments in stages 2/3 have their ECL measured on expected credit losses on a lifetime basis.
- A pervasive concept in measuring ECL in accordance with IFRS 9 is that it should consider forward-looking information.
- Purchased or originated credit-impaired financial assets are those financial assets that are credit-impaired on initial recognition. Their ECL is always measured on a lifetime basis (stage 3). Currently the Bank does not have any purchased or originated credit-impaired financial assets on its books.

Further explanation is also provided of how the Bank determines appropriate groupings when ECL is measured on a collective basis.

The following diagram summarises the impairment requirements under IFRS 9 (other than purchased or originated credit-impaired financial assets):

The key judgements and assumptions adopted by the Bank in addressing the requirements of the standard are discussed below:

Significant increase in credit risk (SICR)

The Bank considers a financial instrument to have experienced a significant increase in credit risk when one or more of the following qualitative or backstop criteria have been met.

(iii) Qualitative criteria

For retail portfolios, if the borrower meets one or more of the following criteria:

- In short-term forbearance
- Direct debit cancellation
- Extension to the terms granted
- Previous arrears within the last (12) months

For Corporate and Investment portfolios, if the borrower is on the Watchlist and/or the instrument meets one or more of the following criteria:

- Significant increase in credit spread
- Significant adverse changes in business, financial and/or economic conditions in which the borrower operates
- Actual or expected forbearance or restructuring
- Actual or expected significant adverse change in operating results of the borrower
- Significant change in collateral value (secured facilities only) which is expected to increase risk of default
- Early sign of cashflow/liquidity problems such as delay in servicing of trade creditors/ loans

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(g) Classes of financial instruments (Cont'd)

Expected credit loss measurement (ECL) (Cont'd)

(iii) Qualitative criteria (Cont'd)

The assessment of SICR incorporates forward-looking information (refer to note SICR for further information) and is performed on a quarterly basis at a portfolio level for all retail financial instruments held by the Bank. In addition to corporate and investment financial instruments, where a Watchlist is used to monitor credit risk, this assessment is performed at the counterparty level on a quarterly basis. The criteria used to identify SICR are monitored and reviewed periodically for appropriateness by the independent Credit Risk team.

(iv) Backstop

A backstop is applied and the financial instrument considered to have experienced a significant increase in credit risk if the borrower is more than 30 days past due on its contractual payments.

Definition of default and credit-impaired assets

The Bank defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria

The borrower is more than 90 days past due on its contractual payments.

The borrower meets unlikelihood to pay criteria which indicates the borrower is in significant financial difficulty. These are instances where:

- The borrower is in long-term forbearance
- The borrower is deceased
- The borrower is insolvent
- The borrower is in breach of financial covenant(s)
- An active market for that financial asset has disappeared because of financial difficulties
- Concessions have been made by the lender relating to the borrower's financial difficulty
- It is becoming probable that the borrower will enter bankruptcy
- Financial assets are purchased or originated at a deep discount that reflects the incurred credit losses

The criteria above have been applied to all financial instruments held by the Bank and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the Probability of Default (PD), Exposure at Default (EAD) and Loss Given Default (LGD) throughout the Bank expected loss calculations.

The 90 days past due default definition has been aligned with the definition used for regulatory capital purposes.

A non-performing exposure should be upgraded to a standard exposure when:

- All arrears of interest and principal are paid by the counterparty in full and the customer meets the terms and conditions of the existing loan for a continuous 'observation' period
- The counterparty has resolved its financial difficulty such that full repayment is expected according to original or modified terms
- The reduction in credit risk is considered sustainable

(v) Measuring ECL- Explanation of inputs, assumptions and estimation techniques

The Expected Credit Loss (ECL) is measured on either a 12-month (12M) or Lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. Expected credit losses are discounted product of the Probability of Default (PD), Exposure at Default (EAD) and Loss Given Default (LGD), defined as follows:

- The PD represents the likelihood of a borrower defaulting on its financial obligation (as per 'Definition of default and credit-impaired' above), either over the next 12 months (12M PD), or over the remaining lifetime (Lifetime ED) of the obligation.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(g) Classes of financial instruments (Cont'd)

Definition of default and credit-impaired assets (Cont'd)

(v) Measuring ECL- Explanation of inputs, assumptions and estimation techniques (cont'd)

- EAD is based on the amounts the Bank expects to be owed at the time of default, over the next 12 months (12M PD), or over the remaining lifetime (Lifetime EAD). For example, for a revolving commitment, the Bank includes the current drawn balance plus any further amount that is expected to be drawn up to the current contractual limit by the time of default, should it occur.
- Loss Given Default (LGD) represents the Bank expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support.

LGD is expressed as a percentage loss per unit of exposure at the time of default (EAD). LGD is calculated on a 12-month or lifetime basis, where 12-month LGD is the percentage loss expected to be made if the default occurs in the next 12 months and Lifetime LGD is the percentage of loss expected to be made if the default occurs over the remaining expected lifetime of the loan.

The ECL is determined by projecting the PD, LGD and EAD for each future year and for each individual exposure or collective segment. These three components are multiplied together and adjusted for the likelihood of survival (i.e. the exposure has not prepaid or defaulted in an earlier month). This effectively calculates an ECL for each future year, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The lifetime PD is developed by applying a maturity profile to the current 12M PD. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the lifetime of the loans. The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio, which is supported by historical analysis.

The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type.

- For amortising products and bullet repayment loans, this is based on the contractual repayments owned by the borrower over a 12M or lifetime basis. This will be adjusted for any expected overpayments made by a borrower. Early repayment/ refinance assumptions are also incorporated into the calculation.
- For revolving products, the exposure at default is predicted by taking current drawn balance and adding a 'credit conversion factor' (CCF) which allows for the expected drawdown of the remaining limit by adding the time of default. These assumptions vary by product type and current limit utilisation band, based on analysis of the Bank's recent default data.
- The 12-month and lifetime LGDs are determined based on the factors which impact the recoveries made post default. These vary by product type.
- For secured products, this is primarily based on collateral type and projected collateral values, historical discounts to market/book values due to forced sales, time to repossession and recovery costs observed.
- For unsecured products, LGD's are typically set at product level due to limited differentiation in recoveries achieved across different borrowers.

Forward-looking economic information is also included in determining the 12-month and lifetime PD, EAD and LGD.

The assumptions under the ECL calculation- such as how the maturity profile of the PDs and how collateral value change, etc.- are monitored and reviewed on a quarterly basis.

(vi) Forward-looking information incorporated in the ECL models

The assessment of SICR and the calculation of ECL both incorporate forward-looking information. The Bank has performed a historical analysis and identified the key economic variables impacting credit risk and the expected credit losses for each portfolio. These economic variables and their associated impact on the PD, EAD and LGD vary by financial instrument.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(g) Classes of financial instruments (Cont'd)

(vi) Forward-looking information incorporated in the ECL models (Cont'd)

The impact of these economic variables on the PD, EAD and LGD has been determined by performing statistical regression analysis to understand the impact changes in these variables have historically on default rates and on the components of LGD and EAD.

Sensitivity Analysis

The most significant assumptions affecting the ECL allowances are as follows:

- (i) Unemployment rate, given its impact on secured and unsecured borrower's ability to meet their contractual repayments;
- (ii) GDP, given the significant impact on individual and companies' performance and collateral valuations; and
- (iii) Inflation rate, given its impact on likelihood of default.

Grouping of instruments for losses measured on a collective basis

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within the Bank are homogeneous.

In performing this grouping, there must be sufficient information for the Bank to be statistically credible. Where sufficient information is not available internally, the Bank has considered benchmarking against internal/external supplementary data to use for modelling purposes. The characteristics and any supplementary data used to determine groupings are outlined below:

Retail- Groupings for collective measurement:

- Product type (e.g. residential loan, overdraft, etc.)
- Repayment type (e.g. interest only)

Corporate- Groupings for collective measurement

- Industry
- Collateral type

The stage 3 exposures are assessed individually. The appropriateness of groupings is monitored and reviewed on a periodic basis by the Credit Risk team.

(h) Write-off policy

The Bank writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable recovery include (i) ceasing enforcement activity; and (ii) where the Bank's recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

The Bank may write off financial assets that are still subject to enforcement activity. The Bank still seeks to recover amounts it is legally owed in full, but which have been partially written off due to no reasonable expectation of full recovery.

(i) Modification and derecognition of financial assets

The Bank sometimes modifies the terms of loans provided to customers due to commercial renegotiations, or for distressed loans, with a view to maximising recovery. Such restructuring activities may include extended payment term arrangements, payment holidays and payment forgiveness. Restructuring policies and practices are based on indicators or criteria which, in the judgement of management indicate that payment will most likely continue. These policies are kept under continuous review. Restructuring is most commonly applied to term loans.

The risk of default of such assets after modification is assessed at the reporting date and compared with the risk under the original terms at initial recognition, when the modification is not substantial and so does not result in derecognition of the original assets. The Bank monitors the subsequent performance of modified assets. The Bank may determine that the credit risk has significantly improved after restructuring, so that the assets are moved from Stage 3 or Stage 2. This is only the case for assets which have performed in accordance with the new terms for six consecutive months or more.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(i) Modification and derecognition of financial assets (Cont'd)

The Bank derecognises a financial asset only when the contractual rights to the asset's cash flows expire (including expiry arising from a modification with substantially different terms), or when the financial asset and substantially all the risks and rewards of ownership of the asset are transferred to another entity.

If the Bank neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Bank recognises the retained interest in the asset and an associated liability for amounts it may have to pay. If the Bank retains substantially all the risks and rewards of ownership of a transferred financial asset, the Bank continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received. On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognised in OCI and accumulated in equity is recognised in profit or loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognised in OCI is not subsequently reclassified to profit or loss. On derecognition of a financial asset other than in its entirety (e.g. when the Bank retains an option to repurchase part of a transferred asset), the Bank allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer.

(j) Modification and derecognition of financial liabilities

The Bank derecognises financial liabilities when, and only when, the Bank's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

When the Bank exchanges with the existing lender one debt instrument into another one with substantially different terms, such exchange is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, the Bank accounts for substantial modification of terms of an existing liability or part of it as an extinguishment of the original financial liability and the recognition of a new liability. To determine if the modified terms of a liability are substantially different to the original terms a similar process with modification of financial assets is followed. The modification is assessed at first on a qualitative basis, factors such as a change in currency or the introduction of a non-closely related embedded derivative that significantly modifies the cash flows are regarded as substantially different. If it is not clear from the qualitative assessment that a modification has resulted in a substantial change in a financial liability, a quantitative assessment is applied. It is assumed that the terms of the financial liability are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective rate is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability.

If the modification is not substantial, the Bank recalculates the amortised cost of the modified financial liability by discounting the modified contractual cash flows using the original effective interest rate. The Bank recognises any adjustment to the amortised cost of the financial liability in profit or loss as income or expense at the date of the modification. The financial liability modification gain/loss is not significant for the Bank. Modification gains are presented in 'other income' and modification losses are presented in 'other expenses' in profit or loss.

(k) Fair value measurements

The Bank measures financial instruments, such as, derivatives at fair value at each reporting date. Also, fair values of financial instruments measured at amortised cost are disclosed in **Note 2 (h)**.

The principal or the most advantageous market must be accessible to the Bank.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Bank uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(l) Derivative financial instruments

Derivative financial instruments include foreign exchange contracts and currency swaps. These are initially recognised in the statement of financial position at cost and subsequently remeasured at their fair value.

Fair values of derivatives between two external currencies are based on interest rate differential between the two currencies. Fair values of forwards involving Mauritian Rupees are based on treasury bills rate or SOFR. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative. Transaction costs are charged immediately through profit or loss.

The Bank's derivative transactions, while providing effective economic hedges under the Bank's risk management policies, do not qualify for hedge accounting under the specific rules of IFRS 9 and are therefore treated as derivatives held for trading with fair value gains and losses reported through profit and loss.

(m) Property and equipment

Property and equipment (except land and buildings) are carried at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Land and buildings are stated at revalued amounts. Subsequent costs are included in the assets carrying amount or recognised as a separate asset as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance costs are charged to the profit or loss during the financial period in which they are incurred.

Land and work-in-progress are not depreciated. Depreciation is calculated to write down the cost or amount of the valuation of such assets to their residual values on a straight-line basis over their estimated useful lives as follows:

Buildings	50 years
Laptops	3 years
Mobile phones	3 years
Computer and other equipment	5 years
Furniture and fittings	10 years
Motor vehicles	5 years

The assets' residual values and useful lives and depreciation methods are reviewed and adjusted prospectively, if appropriate, at the end of each reporting period. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount.

Gains or losses on disposal of property and equipment are determined by reference to their carrying amount and are recognised as income or expense in profit or loss. On disposal of revalued assets, the corresponding amounts included in the revaluation surplus are transferred to retained earnings.

Work-in-Progress ("WIP") is not subject to depreciation. Once the WIP is ready to be used, it will be capitalised and will be depreciated over its useful life.

Revaluation of property

Properties are subject to revaluation every 3 years to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. Increases in the carrying amount arising on revaluation are credited to other comprehensive income and increase the revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised in other comprehensive income and decrease the previously recognised revaluation surplus in equity; all other decreases are charged to profit or loss for the year. The revaluation reserve for premises included in equity is transferred directly to retained earnings when the revaluation surplus is realised on the retirement or disposal of the asset.

(n) Intangible assets

Computer software

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives of five years.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(n) Intangible assets (Cont'd)

Computer software (Cont'd)

Costs associated with developing or maintaining computer software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Bank are recognised as intangible assets when the following criteria are met:

- It is technically feasible to complete the software product so that it will be available for use;
- Management intends to complete the software product and use or sell it;
- There is an ability to use or sell the software product;
- It can be demonstrated how the software product will generate probable future economic benefits;
- Adequate technical, financial and other resources to complete the development and to use or sell the software product are available; and
- The expenditure attributable to the software product during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software product include the software development employee costs and an appropriate portion of relevant overheads. Other development expenditures that do not meet these criteria are recognised as an expense as incurred.

Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Computer software development costs recognised as assets are amortised over their estimated useful lives, which does not exceed five years.

(o) Impairment of non-financial assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there is separately identifiable cash flow (cash generating units).

The impairment test also can be performed on a single asset when the fair value less cost to sell or the value in use can be determined reliably. Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

(p) Stated Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(q) Dividend policy

Dividends are recorded in equity in the period in which they are declared. Any dividends declared after the end of the reporting period and before the financial statements are authorised for issue, are disclosed in the subsequent events note. The statutory accounting results of the Bank are the basis for profit distribution and other appropriations.

(r) Deposits from customers, other borrowed funds and subordinated liabilities

Deposits, other borrowed funds and subordinated liabilities are the Bank's main sources of debt funding.

Deposits, other borrowed funds and subordinated liabilities are initially measured at fair value minus incremental direct transaction costs. Subsequently, they are measured at their amortised cost using the effective interest method.

(s) Provisions for liabilities

Provisions are recognised when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(t) Employee Benefit Obligations

(i) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Bank has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) Defined contribution pension plan

The Bank operates a defined contribution pension plan. The contribution payable to the defined contribution plan is in proportion to the services rendered to the Bank by the employees and is recorded as an expense under 'Personnel expenses'. Unpaid contributions are recorded as a liability.

(iii) Retirement and other benefit obligations

The present value of retirement gratuity as provided under the Mauritian Workers Rights Act 2019 is recognised in the statement of financial position as a liability.

Re-measurement, comprising actuarial gains and losses, is reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements)
- Net interest expense or income
- Remeasurement

The Bank presents the first two components of defined benefit costs in profit or loss in the line item "Personnel expenses" as part of staff costs. Curtailment gains and losses are accounted for as past service costs.

State plan

Contributions to the Contribution Sociale Généralisée (CSG) are expensed to profit or loss in the period in which they fall due.

Defined benefit plans

The Bank also operates a defined benefit pension plan.

A defined benefit plan is a pension plan that is not a defined contribution plan. Typically defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The liability recognised in the statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash flow using interest rates of high quality corporate or government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related employee benefit obligations.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they occur.

The Bank determines the net interest expense/(income) on the net defined benefit liability/(asset) for the period by applying the discount rate to the net defined benefit liability/(asset) and the fair value of the plan asset.

Net interest expense/(income) is recognised in of profit or loss.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(t) Employee Benefit Obligations (Cont'd)

(iii) Retirement and other benefit obligations (Cont'd)

Service costs comprising current service cost and past service cost are recognised immediately in the statement of profit or loss. Current service cost reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit charges curtailments and settlements.

(iv) Preferential rate loans to employees

The Bank grants loans to its employees at preferential rates. The prepaid employee benefits on these loans is accounted for under 'other assets' and is recognised in profit or loss over the shorter of the life of the loan and the expected service life of the employee. The interest rate on the loan reverts to market rate from the day the employee is no longer employed by the Bank. There may be cases where, following special arrangements, the Bank agrees to keep the loan of the leavers at preferential rates. The prepaid employee benefits are the difference between the present value of future cash flows discounted at commercial rate (which are rates that would be given to similar customers in arm's length transactions), and the carrying amount of the loan. Interest on such loans is then recognised at market rate over the life of the loan.

(v) Termination Benefits

Termination benefits are payable when employment is terminated by the Bank before the normal retirement date, or when the employee accepts voluntary redundancy in exchange of these benefits. The Bank recognises termination benefits at the earlier of the following dates:

- (a) When the Bank can no longer withdraw the offer of those benefits;
- (b) When the Bank recognises costs for a restructuring that is within the scope of IAS 37 and involves payment of termination benefits.

In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

As at 31 December 2024, no provision has been made for termination benefits (2023 and 2022: Nil).

(u) Income Tax

Tax expense for the period includes current and deferred tax. Tax is recognised in the statement of profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In such cases, the tax is recognised in other comprehensive income or directly in equity, respectively.

Following the introduction of the Corporate Climate Responsibility (CCR) Levy of 2% on the Bank's profits, a tax rate of 7% has been applied.

(i) Current tax

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting periods, that are recoverable or unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

(ii) Special Levy

Special levy on Banks having leviable income not exceeding Rs 1.2 billion are calculated at the rate of 5.5% of net interest income and other income before deduction of expenses. Special levy is not applicable on income derived from transactions with Global Business Licence holders and Mauritian companies to the extent of their Banking transactions carried out through a foreign permanent establishment.

The levy for a Bank in operation as at 30 September 2018 is capped at 1.5 times of the levy payable for the year of assessment 2017-2018. No levy shall be paid for an accounting period where a bank incurred a loss in the accounting period.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(u) Income Tax (Cont'd)

(iii) Corporate Social Responsibility

The Bank also makes a statutory provision for CSR activities at the rate of 2% of chargeable income (Resident only) as per Mauritian Income Tax Act 1995 Section 50L.

The required CSR fund for the year is recognised in tax expense in profit or loss. The net amount of CSR fund payable to the taxation authority is included in current tax liabilities in the statement of financial position.

(iv) Deferred income tax

Deferred tax is provided for, using the liability method, on all taxable temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

The principal temporary differences arise from depreciation of property and equipment, provisions for impairment losses on loans and advances and provisions for employee benefits. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which deductible temporary differences can be utilised.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same tax authorities.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

As per the Mauritian Finance (Miscellaneous Provisions) Act 2018, the tax rate was amended to 5% (2016-17- 15% less the foreign tax credit of 80%) effective as from 1 July 2020. With the CCR levy, the deferred income tax rate is 9% (resident) and 7% (non-resident) as from 2024. The directors have agreed to amend the deferred income tax asset rate to 7% (resident) and 5% (non-resident) as from 2018.

(v) Leases

The Bank as a lessee

The Bank assesses whether a contract is or contains a lease, at inception of the contract. The Bank recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets (such as tablets and personal computers, small items of office furniture and telephones). For these leases, the Bank recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the lessee uses its incremental borrowing rate.

The incremental borrowing rate depends on the term, currency and start date of the lease and is determined based on a series of inputs including: the risk-free rate based on government bond rates; a country-specific risk adjustment; a credit risk adjustment based on bond yields; and an entity-specific adjustment when the risk profile of the entity that enters into the lease is different to that of the Bank and the lease does not benefit from a guarantee from the Bank.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the lessee under residual value guarantees;
- The exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the statement of financial position.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(v) Leases (Cont'd)

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Bank remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Bank did not make any such adjustments in the current and prior years.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Bank incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under IAS 37 Provisions, Contingent Liabilities and Contingent Assets. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use assets.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Bank expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line item in the statement of financial position.

The Bank applies IAS 36 Impairment of Assets to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the "Impairment of non-financial assets" policy.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in 'Other expenses' in profit or loss.

As a practical expedient, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Bank has not used this practical expedient. For contracts that contain a lease component and one or more additional lease or non-lease components, the Bank allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Bank as a lessor

The Bank is engaged in the provision of finance leases to both individuals and corporates. The Bank's portfolio is made up of principally motor vehicles and equipment. The credit quality of the lease book is monitored by a dedicated Credit Risk Team, with the Bank having established strong credit quality assessment criteria, with monitoring of credit limits and collateralisation.

Leases for which the Bank is a lessor are classified as finance leases.

Notes to the Financial Statements

for the year ended 31 December 2024

1.2 Material Accounting Policy Information (Cont'd)

(v) Leases (Cont'd)

(i) Recognition and initial measurement for finance lease receivables

Under a finance lease, substantially all the risks and rewards incidental to legal ownership are transferred by the Bank, and thus the lease payment receivable is treated by the Bank as repayment of principal and interest income to reimburse and reward the lessor for its investment and services. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income.

Initial direct costs such as commissions, legal fees and internal costs that are incremental and directly attributable to negotiating and arranging a lease, but excluding general overheads, are included in the initial measurement of the finance lease receivable and reduce the amount of income recognised over the lease term. The interest rate implicit in the lease is defined in such a way that the initial direct costs are included automatically in the finance lease receivable; there is no need to add them separately.

(ii) Subsequent measurement

The recognition of interest income shall be based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the finance lease. The Bank aims to allocate interest income over the lease term on a systematic and rational basis. This income allocation is based on a pattern reflecting a constant periodic return on the Bank's finance lease receivable.

Finance lease income is calculated with reference to the gross carrying amount of the lease receivables, except for credit-impaired financial assets for which interest income is calculated with reference to their amortised cost (i.e. after a deduction of the loss allowance).

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Bank's net investment in finance lease receivables. Subsequent to initial recognition, the Bank regularly reviews the estimated unguaranteed residual value and applies the impairment requirements of IFRS 9, recognising an allowance for expected credit losses on the lease receivables.

Lease repayments relating to the period, excluding cost for services, are applied against the gross investment in the lease receivables to reduce both the principal and the unearned finance income. Estimated unguaranteed residual values used in computing the Bank's gross investment in a lease are reviewed regularly. If there has been a reduction in the estimated unguaranteed residual value, the income allocation over the lease is revised and any reduction in respect of amounts accrued is recognised immediately.

(w) Related parties

For the purposes of these financial statements, parties are considered to be related to the Bank if they have the ability, directly or indirectly, to control the Bank or exercises significant influence over the Bank in making financial and operating decisions, or vice versa, or if they and the Bank are subject to common control. Related parties may be individuals or other entities.

(x) Segment reporting

The Bank has prepared its separate financial statements in line with the requirements of the Bank of Mauritius Guideline on 'Segmental Reporting under a Single Banking Licence Regime' and Bank of Mauritius Guideline on 'Public Disclosure of Information' which require that segment information should be provided by Resident and Non-Resident banking businesses.

Non-Resident is essentially directed to the provision of international financial services that gives rise to foreign source income. Such services may be fund based or non-fund based.

Resident relates to Banking business other than Non-Resident business.

Expenditure incurred by the Bank but which is not directly attributable to its income derived from Mauritius or its foreign source income is apportioned in a fair and reasonable manner.

Neither these guidelines nor IFRS Accounting Standards mandate the application of IFRS 8 Operating Segments to the financial statements of the Bank. The financial statements do not purport to comply with the requirements of IFRS 8.

Notes to the Financial Statements

for the year ended 31 December 2024

1.3 Critical accounting estimates and judgements

The Bank makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. All estimates and assumptions required in conformity with IFRS are best estimates undertaken in accordance with the applicable standard. Estimates and judgements are evaluated on a continuous basis, and are based on past experience and other factors, including expectations with regard to future events.

Accounting policies and directors' judgements for certain items are especially critical for the Bank's results and financial situation due to their materiality.

(a) Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test (please see financial assets sections of Note 1.2 (g)). The Bank determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Bank monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Bank's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

(b) Calculation of ECL allowance

Significant increase of credit risk: As explained in note 1.2(g), ECL are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. IFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Bank takes into account qualitative and quantitative reasonable and supportable forward-looking information.

Establishing groups of assets with similar credit risk characteristics: When ECLs are measured on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics. Refer to Note 1.2(g) for details of the characteristics considered in this judgement. The Bank monitors the appropriateness of the credit risk characteristics on an ongoing basis to assess whether they continue to be similar. This is required in order to ensure that should credit risk characteristics change there is appropriate re-segmentation of the assets. This may result in new portfolios being created or assets moving to an existing portfolio that better reflects the similar credit risk characteristics of that group of assets. Re-segmentation of portfolios and movement between portfolios is more common when there is a significant increase in credit risk (or when that significant increase reverses) and so assets move from 12-month to lifetime ECLs, or vice versa, but it can also occur within portfolios that continue to be measured on the same basis of 12-month or lifetime ECLs but the amount of ECL changes because the credit risk of the portfolios differs.

Models and assumptions used: The Bank uses various models and assumptions in measuring fair value of financial assets as well as in estimating ECL. Judgement is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk.

- When measuring ECL the Bank uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.
- Probability of default: PD constitutes a key input in measuring ECL. PD is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical information, assumptions and expectations of future conditions.
- Loss Given Default: LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements. Refer to Note 1.2(g) for more details.

Actual loss experience may differ from changes in estimated forward looking information and economic drivers.

The Bank reviews its individually significant loans and advances at each reporting date to assess whether an impairment loss should be recorded in profit or loss. In particular, judgement by management is required in the estimation of the amount and timing of future cash flows when determining the impairment loss. In estimating these cash flows, the Bank makes judgements about the borrower's financial situation and the net realisable value of collaterals. These estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the allowance.

Notes to the Financial Statements

for the year ended 31 December 2024

1.3 Critical accounting estimates and judgements (Cont'd)

(c) Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded on the statements of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is taken from observable market data where possible, but where observable data is not available, a degree of judgement is required in establishing fair values. The judgements include considerations of liquidity and model inputs such as correlation and volatility for longer dated derivatives. Further details on the fair valuation of financial instruments are included in Note 2(i) to the financial statements.

(d) Retirement benefits

The present value of the retirement benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. Any changes in these assumptions will impact the carrying amount of employee benefit obligations.

The assumptions used in determining the net cost (income) for pensions include the discount rate. The actuarial report determines the appropriate discount rate at the end of each year and which is validated by the Bank. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the employee benefit obligations. In determining the appropriate discount rate, the actuary considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related pension liability. Other key assumptions for employee benefit obligations are based in part on current market conditions.

Further information on the carrying amounts of the Bank's retirement benefit obligations and the sensitivity of those amounts to changes in discount rate are provided in note 27.

(e) Leases

The application of IFRS 16 requires significant judgements and certain key estimations. Critical judgements include determination of whether it is reasonably certain that an extension or termination option will be exercised. Key sources of estimation uncertainty in the application of IFRS 16 include estimation of the lease terms, determination of the appropriate rate to discount the lease payments and assessment of whether a right-of-use asset is impaired.

(f) Provisions and other contingent liabilities

Provision is recognised in the financial statements when the Bank has met the recognition criterion. The directors measure the provision at the best estimate of the amount required to settle the obligation at the reporting date. Actual results may be different from their estimates.

In specific circumstances, significant judgment is required from directors to identify the financial effects to be disclosed attributable to the uncertainties inherent in contingent liabilities.

2 FINANCIAL RISK MANAGEMENT

(a) Strategy in using financial instruments

The Bank's business involves taking risks in a targeted manner and managing them professionally. The core functions of the Bank's risk management are to identify all key risks for the Bank, measure these risks, manage the risk positions and determine capital allocations. The Bank regularly reviews its risk management policies and systems to reflect changes in markets, products and best market practice.

The Bank's aim is to achieve an appropriate balance between risk and return and minimise potential adverse effects on the Bank's financial performance. The Bank defines risk as the possibility of losses or profits foregone, which may be caused by internal or external factors.

Risk Management is carried out by the Risk Department under policies approved by the Board of Directors. The Risk Department identifies, evaluates and monitors financial risk in close collaboration with the operating units including Treasury.

(b) Credit risk

Credit risk is the risk of suffering financial loss, should any of the Bank's customers, clients or market counterparties fail to fulfil their contractual obligations to the Bank. Credit Risk arises mainly from commercial and consumer advances, credit cards, and loan commitments arising from such lending activities, but can also arise from credit enhancement provided, financial guarantees, letters of credit, endorsements and acceptances.

The Bank is also exposed to other credit risks arising from investments in debt securities and other exposures arising from its trading activities, including non-equity trading portfolio assets, derivatives and settlement balances with market counterparties.

Credit risk is the single largest risk for the Bank's business. The directors carefully manage the exposure of the Bank to credit risk. The credit risk management and control are centralized in a credit risk management team, which reports to the Chief Risk Officer who in turn reports to the Chief Executive Officer.

Notes to the Financial Statements

for the year ended 31 December 2024

2 FINANCIAL RISK MANAGEMENT (CONT'D)

(b) Credit risk (Cont'd)

- (i) The maximum exposure to credit risk before collateral and other credit risk enhancements are as follows:

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
Balances with Banks in Mauritius, Banks abroad and inter Bank placements	17,090,743	10,169,278	8,191,392
Derivative assets held for risk management	33,666	4,580	3,116
Government of Mauritius/Bank of Mauritius securities	5,463,509	4,496,054	3,680,651
Other Investments	8,230,177	8,548,996	8,644,778
Loans and advances to customers and Banks	23,643,099	28,003,070	25,327,450
Others	16,955	17,546	21,315
Credit risk exposures relating to off balance sheet assets are as follows:			
Financial guarantees	2,895,950	2,967,346	2,387,488
Loans commitments and other credit related liabilities	1,910,453	2,795,582	1,976,757
Total	59,284,552	57,002,452	50,232,947

- (ii) Collateral and other credit enhancements

The Bank employs a range of policies and practices to mitigate credit risk. The most common of these is accepting collateral for funds advanced. The Bank has internal policies on the acceptability of specific classes of collateral or credit risk mitigation.

The Bank undertakes independent valuation of the collateral obtained as part of the loan origination process. Longer-term finance and lending to corporate entities are generally secured while revolving individual credit facilities are generally unsecured.

The principal collateral types for loans and advances are:

- Fixed and Floating charges on properties and other assets
- Privilege d'Inscription
- Lien on vehicle/equipment/machinery
- Pledge of shares/rent/proceeds of crops
- Lien on deposits
- Assignment of Life Policy/general insurance policy
- Assignment of rights of leases for leasehold properties
- Bank Guarantee/personal guarantee/Government Guarantee
- Nantissement de Parts Sociales dans le capital d'une Société
- Ownership of Machinery/Equipment/ Vehicles financed by the Bank under Finance Leasing
- Pledge of deposits from other Financial Institution/Licensed Deposit Taker
- Mortgages over residential properties
- Charges over business assets such as premises, inventory and accounts receivable; and
- Charges over financial instruments such as debt instruments and equity securities.

Collateral held as security for financial assets other than loans and advances depends on the nature of the instrument. Debt instruments or other investments are generally unsecured. The Bank's policies regarding obtaining collateral have not significantly changed during the reporting period and there has been no significant change in the overall quality of the collateral held by the Bank since the prior period.

Notes to the Financial Statements

for the year ended 31 December 2024

2 FINANCIAL RISK MANAGEMENT (CONT'D)

(b) Credit risk (Cont'd)

(iii) Credit impaired assets

The Bank closely monitors collateral held for financial assets considered to be credit-impaired, as it becomes more likely that the Bank will take possession of collateral to mitigate potential credit losses. Financial assets that are credit-impaired and related collateral held to mitigate potential losses are shown below:

Credit-impaired assets

	Dec-24		Dec-23		Dec-22	
	Gross Exposure	Fair Value of collateral held	Gross Exposure	Fair Value of collateral held	Gross Exposure	Fair Value of collateral held
	Rs'000	Rs'000	Rs'000	Rs'000	Rs'000	Rs'000
Loans to individuals:

2 FINANCIAL RISK MANAGEMENT (CONT'D)

(c) Capital Structure

The Bank's objectives when managing capital are:

- i) to comply with the capital requirements set by the Bank of Mauritius,
- ii) to safeguard the Bank's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders and
- iii) to maintain a strong capital base to support the development of its business.

Details of Tier 1 capital, Tier 2 capital, total Risk Weighted Assets and capital adequacy ratio are given below:

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
Tier 1 Capital	3,664,425	3,759,784	3,302,260
Tier 2 Capital	1,156,384	1,210,021	1,494,027
Total Capital Base	4,820,809	4,969,805	4,796,287
Total Risk Weighted Assets	27,814,326	29,501,825	27,703,125
Capital Adequacy Ratio	17.33%	16.85%	17.31%

The minimum statutory capital adequacy ratio is fixed at 12.50%.

Details presented in capital management section on page 77.

(d) Market risk

The Bank is exposed to market risks, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks arise from open positions in interest rates, currency and equity products, all of which are exposed to general and specific market movements and changes in the level of volatility of market rates or prices such as interest rates, foreign exchange rates and equity prices. The Bank separates exposures to market risk into either trading or non-trading portfolios.

The market risk arising from trading and non trading activities are concentrated in Bank Treasury and Market risk teams. Regular reports are submitted to the Management and the Board of Directors.

The Board of Directors approves the risk strategy, risk policies and prudential limits within which the operations are to be carried out.

Implementation of the policies and business strategies are delegated to Management and the Risk Management Unit.

(e) Currency risk

The Bank takes on exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The Board sets limits on the level of exposure by currency and in aggregate for both overnight and intra day positions, which are monitored daily. The table below summarises the Bank's exposure to foreign exchange risk as at 31 December 2024. Included in the table are the Bank's financial instruments at carrying amounts, categorised by currency.

At 31 December 2024	USD Rs 000	EURO Rs 000	GBP Rs 000	OTHERS Rs 000	TOTAL Rs 000

The effect of a reasonably possible movement of the currency rates, to which the Bank had significant exposures as at 31 December 2022, against the MUR, with all other variables held constant, on the profit or loss is as follows:

	Increase/(decrease) in profit or loss		
	USD	EURO	GBP
	Rs 000	Rs 000	Rs 000
+5% in currency rate	(59,635)	82,960	(25,673)
-5% in currency rate	59,635	(82,960)	25,673

Notes to the Financial Statements

for the year ended 31 December 2024

2. FINANCIAL RISK MANAGEMENT (CONT'D)

(f) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Bank takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on both its fair value and cash flow risks. Interest margins may increase as a result of such changes but may reduce losses in the event that unexpected movements arise.

The table below summarises the Bank's non-trading book fair value exposure to interest rate risks. It includes the Bank's financial instruments at carrying value categorised by the earlier of contractual maturity and date of repricing.

2. FINANCIAL RISK MANAGEMENT (CONT'D)

(g) Liquidity risk

Liquidity risk is the risk that the Bank is unable to meet its obligations when they fall due as a result of customer deposits being withdrawn, cash requirements from contractual commitments, or other cash outflows, such as debt maturities or margin calls for derivatives. Such outflows would deplete available cash resources for client lending, trading activities and investments. The Bank's liquidity management process is carried out by the Bank Treasury team. The Bank uses the maturity gap report for measurement and management of liquidity risk. The maturity gap report slots the inflows and outflows in different maturity buckets as defined by the Bank of Mauritius, according to the expected timing of cash flows.

(i) Cash resources

The fair value of cash resources is equal to their carrying amount as these are for short terms only.

(ii) Loans and advances to Banks and to customers

Loans and advances are net of provisions for impairment. The estimated fair value of loans and advances represents the discounted amount of estimated future cash flows expected to be received. The fair value is calculated by applying the market rates to the fixed rate term loans.

(iii) Investment securities

Interest-bearing amortised cost investments include Treasury Notes whose fair values are based on market prices or broker/dealer price quotations. Financial assets classified as FVTOCI represent investment in Treasury Bills whose fair value are based on bid price and yield published by the Bank of Mauritius.

(iv) Deposits and subordinated liabilities

The estimated fair value of deposits with no stated maturity, which includes non-interest-bearing deposits, is the amount repayable on demand.

The estimated fair value of fixed interest-bearing deposits and debt securities issued not quoted in an active market is based on discounted cash flows using interest rates for new debts with similar remaining maturity.

(v) Other financial assets and liabilities on the statement of financial position

The fair values of other assets, other borrowed funds, provisions and other liabilities at the reporting date approximate their fair values.

(vi) Off-balance sheet financial instruments

Guarantees, acceptances, loans commitments and other financial liabilities are shown at their fair values.

Notes to the Financial Statements

for the year ended 31 December 2024

2. FINANCIAL RISK MANAGEMENT (CONT'D)

(i) Fair value hierarchy

IFRS 13 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Bank's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level – 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities. This level includes listed equity securities and debt instruments on exchanges.
- Level – 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). This level includes the majority of the Over-The-Counter derivative contracts, traded loans, issued structured debt and other investment securities.
- Level – 3 Inputs for the asset or liability that are not based on observable market data (unobservable inputs). This level includes equity investments and debt instruments with significant unobservable components.

This hierarchy requires the use of observable market data when available. The Bank considers relevant and observable market prices in its valuations where possible.

The Bank's Level 2 instruments consists of Derivatives held for risk management and investment securities. The input used in the fair value of these instruments relates to SOFR interest rate, as published by Reuters, and yield curve by the Government of Mauritius.

As at 31 December 2024, the Bank holds equity investments with significant unobservable components falling under the Level 3 fair value hierarchy. The equity investment has been fair valued based on the market approach. Derivatives held for risk management falling under category Level 2, uses Quoted prices using Reuters platform. Level 3 fair values of land and building have been derived using the services of a chartered valuer.

The hierarchy requires the use of observable market data when applicable.

At 31 December 2024

2. FINANCIAL RISK MANAGEMENT (CONT'D)

(i) Fair value hierarchy (Cont'd)

Transfer between levels

No transfer arose between levels during the year.

Valuation process

The valuations of non-property items required for financial reporting purposes, including level 3 fair values are performed at Finance department led by the Chief Financial Officer (CFO).

The valuations of properties are based on market value and on vacant possession basis. The values have been primarily derived using the direct comparison method as well as the income approach. Due to consideration is given to the existing state of property market in general and to this submarket.

	(633,411)	(674,637)	(617,351)

Other personnel expenses include training and other staff related expenses.

Notes to the Financial Statements

for the year ended 31 December 2024

9. OTHER EXPENSES

	Dec-24	Dec-23	Dec-22
	Rs 000	Rs 000	Rs 000
Software licensing and other information technology cost	(189,098)	(150,878)	(142,884)
Premises related expenses	(81,217)	(63,919)	(62,753)
Legal and professional expenses	(69,651)	(25,921)	(22,273)
Others	(75,867)	(82,601)	(62,563)
	(415,833)	(323,319)	(290,473)

Others include directors expenses, subscriptions and marketing and promotion expenses.

10. INCOME TAX EXPENSE

- (a) Income tax expense is recognised based on management's estimate of the weighted average annual income tax rate expected for the full financial year.

Prior to the enactment of the Mauritius Finance Act 2023, the tax regime applicable to banks was as follows for financial years ended 31 December 2023 and 2022, subject to Banks satisfying some prescribed conditions:

Up to Rs 1.5 bn	5%
Above Rs 1.5 bn and up to the amount equivalent to the chargeable income of the base year (FY 31 December 2017)	15%
Remainder	5%

Following enactment of the Mauritius Finance Act 2023 in July 2023, the reduced incentive rate of 5% applicable to banks on chargeable income exceeding MUR 1.5 billion has been abolished. Banks are now taxed at 7% on a chargeable income of less than MUR 1.5 billion and at 15% on a chargeable income exceeding MUR 1.5 billion.

Deferred tax asset is calculated at the rate of 9% for resident and 7% for non-resident.

- (d) Special levy on banks having leviable income not exceeding Rs 1.2 billion is calculated at the rate of 5.5% of net interest income and other income before deduction of expenses. Special levy is not applicable on income derived from transactions with Global Business Licence holders and Mauritian companies to the extent of their banking transactions carried out through a foreign permanent establishment.

	Dec-24	Dec-23	Dec-22
	Rs 000	Rs 000	Rs 000
(a) Current tax expense			
Tax expense (including Special levy and CSR)	57,132	44,645	33,566

Under finance lease, all the risks and rewards of ownership of the asset are transferred to the lessee. The term of the lease contract generally ranges from five to seven years. All finance lease receivables are secured over the asset leased and in some cases additional guarantees are taken from the lessee.

Amount due from lessees under finance leases are recorded under loans and advances. Finance lease income is allocated to the accounting period so as to reflect a constant periodic rate of return on the Bank's net investment outstanding in respect of the leases.

18. PROPERTY AND EQUIPMENT (CONT'D)

Assets disposed/scrapped/written-off during the year (cost)

Computer and equipment

Other assets

Work in progress included in property and equipment as at year end were incurred for:

(i) Renovation of branch

(ii) Others

Dec-24	Dec-23	Dec-22
Rs 000	Rs 000	Rs 000
448	13,523	480
1,985	5,367	-
2,433	18,890	480
1,696	1,912	2,466
27,596	4,225	1,733
29,292	6,137	4,199

The Bank's land and buildings were last revalued in July 2023 by V.Ramjee & Associates Ltd (chartered valuer). The revalued amount was not materially different from the carrying amount at date of valuation. The basis of valuation is based on market value, defined in accordance with International Valuation Standard Committee.

The directors have assessed the fair value of the above assets at 31 December 2024 and have estimated the fair value to approximate their carrying value at that date.

The directors have assessed the carrying value of equipment and are of the opinion that no impairment is required at the reporting date. (2023: Nil, 2022: Nil)

Fully depreciated tangible assets:

The gross carrying amount of fully depreciated property, plant and equipment that were still in use consists of:

Dec-24	Dec-23	Dec-22
Rs 000	Rs 000	Rs 000
95,481	90,795	95,492
60,066	46,407	46,455
155,547	137,202	141,947

Land and Buildings excluding revaluation

If these land and buildings were stated on the historical cost basis, the net book value would have as follows:

Dec-24	Dec-23	Dec-22
Rs 000	Rs 000	Rs 000
201,000	201,000	201,000
(90,944)	(86,924)	(82,569)
110,056	114,076	118,431

Notes to the Financial Statements

for the year ended 31 December 2024

27. EMPLOYEE BENEFIT OBLIGATIONS (CONT'D)

(a) Defined pension benefits

The plan is a defined benefit arrangement, with benefits based on final salary. It provides for a pension at retirement and a benefit on death or disablement in service before retirement. The assets of the funded plan are held and independently administered by Swan Life Ltd.

The following information is based on actuarial valuation report dated 20 February 2025 by Swan Life Ltd:

- (i) The amounts recognised in the statement of financial position are as follows:

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
Present value of funded obligations	276,656	221,539	195,414
Fair value of plan assets	(149,030)	(137,914)	(139,764)
Liability in the statement of financial position	127,626	83,625	55,650

- (ii) The movement in the defined benefit obligations over the year is as follows:

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
At 1 January	83,625	55,650	42,002
Amount recognised in profit or loss	14,494	12,086	10,429
Amount recognised in other comprehensive income (gross)	36,021	22,034	10,611
Contributions by the employer	(6,514)	(6,145)	(7,392)
At 31 December	127,626	83,625	55,650
Non-current	127,626	83,625	55,650

- (iii) The movement in the defined benefit obligations the year is as follows:

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
At 1 January	221,539	195,413	192,377
Included in profit or loss			
Current service cost	9,576	8,276	8,222
Interest cost	11,427	11,438	7,186
Included in other comprehensive income			
Experience losses/(gains) on the liabilities	22,871	14,272	7,323
Changes in assumptions underlying the present value of the scheme	14,846	8,233	6,027
Other			
Benefits paid	(3,603)	(16,093)	(25,722)
At 31 December	276,656	221,539	195,413

- (iv) The movement in the fair value of plan assets of the year is as follows:

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
At 1 January	137,914	139,763	150,375
Interest Income	7,228	8,209	5,639
Employer's contribution	6,514	6,146	7,392
Scheme expenses	(248)	(239)	(289)
Cost of insuring risk benefits	(470)	(343)	(371)
Actuarial gain	1,696	471	2,739
Benefits paid	(3,603)	(16,093)	(25,722)
At 31 December	149,031	137,914	139,763

Notes to the Financial Statements

for the year ended 31 December 2024

27. EMPLOYEE BENEFIT OBLIGATIONS (CONT'D)

(a) Defined pension benefits (Cont'd)

(v) The amounts recognised in profit or loss are as follows:

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
Current service cost	9,576	8,276	8,222
Scheme expenses	248	239	289
Cost of insuring risk benefits	470	343	371
Net interest cost	4,200	3,228	1,547
Total included in employee benefit expense	14,494	12,086	10,429
Actual return on plan assets	8,923	8,680	8,378

(vi) The amounts recognised in other comprehensive income are as follows:

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
Gains on pension scheme assets	(1,696)	(471)	(2,739)
Experience losses on the liabilities	22,871	14,272	7,323
Changes in assumptions underlying the present value of the scheme	14,846	8,233	6,027
	36,021	22,034	10,611

(vii) Plan assets

The assets of the plan are invested in the Deposit Administration Policy underwritten by Swan Life Ltd. The Deposit Administration Policy is a pooled insurance product for Group Pension Schemes. It is a long-term investment Policy which aims to provide a smooth progression of returns from one year to the next without regular fluctuations associated with asset-linked investments such as Equity Funds. Moreover, the Deposit Administration Policy offers a minimum guaranteed return of 4% p.a.

(viii) As the pension fund is expected to produce a smooth return, a fairly reasonable indication of future returns can be obtained by looking at historical ones. Therefore, the long term expected return on asset assumption has been based on historical performance of the pension fund.

In terms of the individual expected returns, the expected return on equities has been based on an equity risk premium above a risk free rate. The risk free rate has been measured in accordance to the yields on government bonds at the measurement date.

The fixed interest portfolio includes government bonds, debentures, mortgages and cash. The expected return for this asset class has been based on yields of government bonds at the measurement date.

(ix) Average duration

The Weighted average duration of the liabilities at 31 December 2024 is 8 years.

(x) Future cash flows

The funding requirements of the defined benefit plan are based on the pension fund's actuarial measurement framework set out in the funding policies of the plan.

Bank One Limited is expected to contribute MUR 6.6m to the pension scheme for the year ending 01 January 2026.

(b) Liability for unfunded pension plan

The liability relates to employees who are entitled to Retirement Gratuities payable under the Workers' Right Act (WRA). The latter provides for a lump sum at retirement based on final salary and years of service. All employees joining after 2008 will be entitled to receive the gratuity payment under the WRA.

Notes to the Financial Statements

for the year ended 31 December 2024

27. EMPLOYEE BENEFIT OBLIGATIONS (CONT'D)

(b) Liability for unfunded pension plan (Cont'd)

The movement in the obligation of the unfunded pension plan of the year is as follows:

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
At 1 January	37,639	28,803	18,808
Amount recognised in profit or loss:			
Current service cost	3,669	5,213	4,075
Past service cost	-	(12,203)	-
Net interest cost	1,995	1,814	884
Amount recognised in profit or loss	5,664	(5,176)	4,959
Amount recognised in other comprehensive income (gross)	1,455	14,012	5,036
At 31 December	44,758	37,639	28,803

The weighted average duration of the liability as at 31 December 2024 is 11 years (2023: 11 years).

(c) Key assumption

The principal actuarial assumptions used for the purposes of the actuarial valuations were:

	Dec-24 %	Dec-23 %	Dec-22 %
<u>Funded pension liability</u>			
Discount rate	5.0	5.2	6.1
Future salary growth rate	4.0	3.5	3.5
<u>Unfunded pension liability</u>			
Discount rate	5.2	5.3	6.3
Future salary growth rate	4.0	3.5	3.5

(d) Sensitivity analysis

Sensitivity analysis on both funded and unfunded benefit obligations to changes in the weighted principal assumptions is:

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000
<u>Defined benefit funded scheme:</u>			
1% increase in discount rate	19,994	16,912	15,034
1% decrease in discount rate	(22,598)	(19,190)	(17,093)
1% increase in future salary growth rate	23,520	20,449	19,905
1% decrease in future salary growth rate	(21,237)	(18,329)	(17,701)
<u>Unfunded obligations</u>			
1% increase in discount rate	9,579	(7,634)	(5,631)
1% decrease in discount rate	(11,524)	(9,375)	(7,326)
1% increase in future salary growth rate	11,418	9,431	7,011
1% decrease in future salary growth rate	(9,636)	(7,802)	(6,182)

Notes to the Financial Statements

for the year ended 31 December 2024

27. EMPLOYEE BENEFIT OBLIGATIONS (CONT'D)

(e) Risk exposure

The sensitivity analyses above have been determined based on sensibly possible changes of the discount rate or salary increase rate occurring at the end of the reporting period if all other assumptions remained unchanged.

The sensitivity analysis may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

There was no change in the methods used in preparing the sensitivity analysis from prior years.

Through its defined pension benefit and unfunded plans, the Bank is exposed to a number of risks, the most significant of which are detailed below:

(i) Funded plan

Longevity risk: The plan liability is calculated by reference to the best estimate for the mortality of plan participants both during and after their employment. An increase in life expectancy of the plan participants will increase the plan liability.

Investment risk: The plan liability is calculated using a discount rate determined by reference to government bond yields; if the return on plan assets is below this rate, it will create a plan deficit and if it is higher, it will create a plan surplus.

(ii) Unfunded plan

Longevity risk: The plan liability is calculated by reference to the best estimate for the mortality of plan participants both during and after their employment. An increase in life expectancy of the plan participants will increase the plan liability.

28. CONTINGENT LIABILITIES

	Dec-24 Rs 000	Dec-23 Rs 000	Dec-22 Rs 000

	2,078,929	3,391,409	2,366,958

Legal claims

Litigation is a common occurrence in the Banking industry due to the nature of the business undertaken. The Bank has formal control and policies for managing legal claims. Once professional advice has been obtained and the amount of loss reasonably estimated, the Bank makes adjustments for any adverse effects which the claims may have on the financial standing.

Notes to the Financial Statements

for the year ended 31 December 2024

28. CONTINGENT LIABILITIES (CONT'D)

The legal claims against the Bank is in respect of few customers who have alleged that breaches have been committed by the Bank which have resulted in the clients suffering financial losses. The Bank's legal counsel's opinion is that it is possible, but not probable, that the court ruling may be in favour of the claimant. Accordingly, no provision for any claim has been made in these financial statements. The possible outflow which could result from such litigation, based on the current status of the legal proceedings, is estimated to be insignificant, while the timing of the outflow is uncertain.

29. STATED CAPITAL

Shares at no par value

Stated capital

At start of year and end of the year

No of ordinary shares in issue (no par value)

34. IMPACT OF PRIOR YEAR RESTATEMENT

A. Minimum cash balance wrongly classified

Section 49 of the Bank of Mauritius Act provides that the Central Bank of Mauritius may require all banks to maintain a minimum cash balance of up to 25% of each bank's total deposit and other liabilities as the Central Bank of Mauritius may specify.

On average, over a maintenance period of 28 days, the bank shall maintain minimum cash balances equivalent to 9% of their average Mauritian rupee and foreign currency deposit in the preceding 28-day period. In prior period, management has considered that the minimum cash balance was restricted and as such the balance was classified as a receivable under other asset. In the current period, management has reassessed the classification of the minimum cash balance and consider that the classification was not proper on the basis that the bank can use the funds overnight. The nature of restriction does not change the nature of the minimum cash balance in a way that it would not meet the definition of cash in IAS 7. During the maintenance period of 28 days, the Bank do have access to use the funds and are allowed to replenish same as and when required. As such, the minimum cash balance of Rs 1,706,580,000 for 2023 (2022: Rs 1,292,777,000) meets the criteria to be considered as cash and cash equivalents.

B. Change in borrowing from banks and investment securities with tenor of less than 3 months wrongly classified in the statement of cash flows

The movement in borrowings from banks of Rs 292,057,000 for 2023 (2022: Rs 525,299,000) and investment securities with tenor life of less than 3 months of Rs 112,744,000 for 2023 have been wrongly classified within net cash (used in)/generated from financing activities and net cash (used in)/generated from investing activities respectively in the statement of cash flows.

In line with IAS 8 – Accounting policies, changes in accounting estimates and errors, the prior year figures were restated to reflect the proper classification of the minimum cash balance, borrowings from banks and investment securities under cash and cash equivalent.

The effect of the restatement on the financial statement as at 01 January 2023 and 31 December 2023 are as follows:

Extract of the Statement of Financial Position

	As previously stated	Impact of restatement	As restated
	31-Dec-22		31-Dec-22
	Rs 000	Rs 000	Rs 000
Other assets	1,571,519	(1,292,777)	278,742
Cash and cash equivalent	6,898,615	1,292,777	8,191,392

	As previously stated	Impact of restatement	As restated
	31-Dec-23		31-Dec-23
	Rs 000	Rs 000	Rs 000
Other assets	2,008,376	(1,706,580)	301,796
Cash and cash equivalent	8,462,698	1,706,580	10,169,278
